Safety Information

This user manual contains all necessary product safety information.
Please read carefully before using the device and retain for future reference.

Version : 5.1

1

Declaration

OnePlus is a trademark or registered trademark of OnePlus Technology (Shenzhen) Co., Ltd. All rights reserved. Without prior written permission, any copying, distribution, sharing, modification, adaptation, or other use of the contents in this document in any form is prohibited. OnePlus operates a policy of continuous improvement. OnePlus reserves the right to make changes or improvements to any of the products described in this document without prior notice. The contents of this document are all provided "as is". Except as required by applicable laws, no warranty of any kind, either expressly or implied, are made in relation to the accuracy of this document. To the maximum extent permitted by applicable laws, in no event shall neither nor OnePlus or any of its licensors be responsible for any lost data or incur any special, incidental, consequential, or indirect damages.
Availability of products, services, application software, and third-party software may vary by region. Contact your local or authorized OnePlus distributor. This device may contain hardware, software, or technical data that is subject to export laws and regulations. Diversion contrary to law is prohibited.
Due to its frame styles, it is normal that the actual available storage is less than the displayed storage because the operation systems require some necessary storage space. Please refer to the product specifications for more information. You can press the "Privacy Policy" in the Setup Wizard when you turn on your phone for the first time. You can also find the "Privacy Policy" in the Settings > About Phone > Legal information. Privacy Policy.

Safety Notice

Failure to follow these guidelines may cause harm to your device, property, yourself, or others.

- Do not use the device in areas where prohibited or when it may cause interference or danger.
- Do not operate a vehicle, obey and follow all related laws and regulations.
- Do not operate in gas stations, service stations, or near fuel or chemicals.
- Mobile phones might cause interference. Check all laws and regulations before use.
- Hospitals or healthcare organizations may use equipment that is sensitive to radio frequencies. Please obey all rules and regulations.
- All wireless devices are susceptible to interference, which may affect performance.
- Only qualified and authorized personnel should make repairs on the device.
- Only use branded accessories and parts that are approved by OnePlus. Accessories which are not approved by OnePlus may damage the phone or cause harm.

2

- The device is designed for water resistance under certain circumstances. Do not use the device in environments susceptible to liquid damage and wet the warranty.
- When connecting with other devices, please follow the relevant safety instructions. Do not connect or attempt to connect your device with incompatible products.

Battery Precautions

- Please do not attempt to repair, disassemble or modify the battery. Do not puncture, crush, bend, or deform, short circuit, or allow heat sources. Prolonged exposure to high temperatures may cause battery to explode.
- Please do not place pressure or or pierce the battery with sharp objects. Improper use of battery could cause battery leakage, overheating, or fire.
- Battery liquid may cause damage to skin or clothes. If battery liquid comes into contact with your skin or clothes, immediately rinse with clean water and seek medical attention.
- If you experience any battery abnormalities, such as high temperature, deformation, or leakage, please immediately discontinue usage of the device and contact your local OnePlus Service Center.
- If the battery's internal liquid comes in contact with your eyes, thoroughly rinse with clean water and seek medical attention.
- Do not connect your device to a high voltage power source. Do not use the battery for other purposes.
- All batteries have a limited lifespan and will begin to lose capacity after a certain number of charge cycles. Please contact your local OnePlus Service Center if your battery is in need of replacement.

Please Recycle Your Battery
Please Recycle Your Battery

To save power and extend battery life, please:

- Features like Bluetooth and WiFi consume more energy. Turn on/disable these features when not in use.
- The brighter the screen, the more energy will be consumed. Please adjust the screen brightness to maintain the deep time within the battery life. Please also set the screen to turn off automatically when not in use.
- unauthorized chargers can be dangerous and can cold damage your device.
- Make sure to only use cables with the correct voltage (as label tell on the charging brick). Using an incorrect voltage may damage your device and cause fire and injury.
- Do not short circuit the cables.
- Do not use a short circuit charger.
- Do not use damaged charging cables, as this may lead to operational injuries, electric shock, or fire.
- Do not use the charger in humid environments.
- Do not touch the charging port with conductive objects with wet hands, as this may cause electric shock.

3

- Do not place heavy objects on the power cord or attempt to modify any cables.
- Please unplug the charger from wirte outlet/plug it. Do not pull the power cord as this may lead to damage and affect the charging performance.
- Before cleaning the device, unplug the power plug from the wirte outlet.
- The charger is intended for indoor use only.
- The maximum ambient charging temperature of the charger is 40°C (104°F) or lower.
- Do not charge the device in the following conditions: Extreme temperature, Direct sunlight, Humid environment with humidity, dust or strong vibrations, In areas near a stove or other high temperature equipment.
- Adapter shall be installed near the equipment and shall be easily accessible.

Driving Safety

- Safety should take priority when you are operating a vehicle. Please do not operate your mobile phone or other devices while driving. Please do not place or carry your mobile phone or other devices in the airbag deployment area. Please do not place your phone or other devices in front of the airbag. Improper use of wireless devices or applications are only for reference purposes only. Location based services and other high-risk activities or leisure features are not supported. Map routes and GPS navigation may be incorrect, incomplete or unsupported. Please use your discretion when using the navigation or even equipment. Please follow the laws and regulations of the company, so please only use it for reference purposes. Please do not use the device or the non-suitable applications that are not suitable for operation while driving, such as video or gaming.

Driving Safety

- Please switch off your device wherever phone use is prohibited or when it may cause interference or danger. Please follow all rules and regulations in areas where electronic equipment and medical devices. Please follow related laws and regulations.
- Please switch off your device when it may interfere with high accuracy electronic equipment.
- Please keep your device within the ambient temperature and 35-40% humidity.
- When in airplane mode, the device may affect a vehicle's electronic equipment.

FCC & IC Statement

1. This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.
2. This device complies with Industry Canada's license-exempt RSSs. Operation is subject to the following two conditions:
(1) This device may not cause interference, and (2) This device must accept any interference, including interference that may cause undesired operation of the device.
3. Ambient operation temperature: 0°C-35°C. Only Canada applications use apparatus radio exempts the licence. Canada applications use apparatus radio exempts the licence.
(1) Equipment not for use where explosive hazards exist, (2) utilisation de l'appareil dont accepter tout brouillage radioélectrique subi, même un brouillage susceptible de compromettre le fonctionnement.
The device could automatically discontinue transmission in case of absence of information to transmit, or operational failure. Note that this is not intended to prohibit transmission of control or signal information or the use of repetitive codes where required by the technology. The device for operation in the band 5150–5250 MHz is only for indoor use to reduce the potential for harmful interference to co-channel mobile satellite systems.
The maximum antenna gain allowed for antennas used in the 5.15 GHz, 5.25 GHz, 5.35 GHz and 5.47 GHz and 5650 MHz and that their tilters could cause interference to other users, should be clear.
4. This Class B digital apparatus complies with Canadian ICES-003. Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.
NOTE: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications or changes to this equipment. Such modifications or changes could void the user's authority to operate the equipment.
NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful to part interference in a residential installation. This equipment generates and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.
However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-Reorient or relocate the receiving antenna.
-Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.

4

FCC Caution

- Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
- The antenna(s) used for this transmitter must be installed or operate in conjunction with any other antenna or transmitter.
- This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Information (SAR)

This device meets the government's requirements for exposure to radio waves.
This device is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S. Government.
The exposure standard for wireless devices employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC is 1.6 W/kg. Tests for SAR are conducted using standard operating positions accepted by the FCC with the EUT transmitting at the highest certified power level in all tested frequency bands. Although the SAR is determined at the highest certified power level, the actual SAR of the EUT while operating can be well below the maximum value. This is because the device is designed to operate at multiple power levels so it uses only the power required to reach the network. In general, the closer you are to a wireless base station antenna, the lower the power output of the device.
While there may be differences between the SAR levels of various devices and at various positions, they all meet the government requirement.
This device has also been tested and meets the FCC/ISED RF exposure guidelines when used in the specified operating position and positions the handset a minimum of 1.5cm from the body.
The FCC/ISED RF exposure guidelines require compliance with the 1.5cm separation distance between the handset a minimum of 1.5cm from your body when the device is transmitting at its highest power level.
Choose the belt clips, holsters, or other body-worn accessories that keep OnePlus products a minimum of 1.5cm away from the body to ensure compliance. Use of other accessories may not ensure compliance with FCC/ISED RF exposure guidelines. Use of other accessories that contain metallic components should be avoided.
Hearing Aid Compatibility (HAC) regulations for mobile phones

- Your phone is compliant with the FCC Hearing Aid

5

- If you are using a pacemaker, hearing aids, cochlear implant or other device, please use the phone according to your doctor's advice.
- Your device is designed not to exceed the limits of emission of radio waves recommended by international guidelines.
- The SAR value of the device when used next to the ear, or positioning to the network lower or use of accessories, may be different due to industry guidelines and accessories which do not contain metallic components in compliance with the FCC/ISED RF exposure guidelines. Cases with metal parts may change the RF performance of the device, in a manner that is unknown to FCC/ISED guidelines, in a manner that has not been tested and certified and use such accessories should be avoided.

If Water Damaged Occurred

If waste refers to the ended electronics and electronic equipment, the device, battery, and accessories should be recycled, please refer to local laws and regulations. Do not discard the device on your own. Always discard used electronic products, batteries, and accessories at a local recycling facility or return them to an authorized or collection center.
Do not dispose of the device, battery, and accessories in fire. Disposal of batteries into household waste, improper disposal of batteries, or incineration of batteries may cause explosions. Some waste contains hazardous substances. If not disposed properly and may release toxins into the soil and water, and may cause harm to the environment and human health.

Additional Important Health and Safety Information

- Please do not use the phone if antenna is damaged. Otherwise, it could cause injury.
- Do not place the phone near magnetic cards or other magnetic media. The magnetic field in the phone may memory cards and credit cards could be damaged by magnetic field.
- Please keep metallic objects away from phone receiver. Metallic objects may affect the receiver and cause personal injury or device damage could occur.
- Keep phone away from water and other liquids. Water may enter into the phone's circuit board, causing liquid inside the phone if the liquid comes in contact with the circuit board, causing corrosion, which will affect the circuit board and immediately seek medical attention.
- Do not place the phone near or on heat sources, batteries and chargers. Until high temperature may cause the battery leakage, overheating or fires. OnePlus will not be responsible for any damage to the product caused by using accessories that are not approved by OnePlus.
- Only connect to power sources with USB 2.0 or above standard. Connecting to a power source with a voltage in the 5 V (DC) ±0.5V MAX frequency range.

6

CE Certification Information (SAR)

- The SAR limit of Europe is 2.0W/kg. This device was tested for compliance against the SAR limits while worn on the torso from the body. Certain companies often will require that products be worn on the torso of the body to ensure a tight separation distance between the your body and the device. Please check with your OnePlus Service Center or similar accessories dealer to see if OnePlus sell accessories in its assembly. The use of accessories that do not satisfy the requirements may violate the CE SAR limit requirements, and should be avoided.

Care and Maintenance

- Your phone is a product of superior design and craftsmanship and should be treated with care. The following suggestions will help you protecting the rift of your phone.
- If the screen comes in contact with liquid or dust, please clean immediately.
- Depending on the connection port of the phone, an static electricity may damage the connection port. Do not hit, shake or drop the phone to avoid damage and injury.
- Do not paint/varnish on the device, as it may damage the device and affect the normal use.
- Do not place the battery, phone or charger in a microwave oven or pressure cooker, as this may damage the circuit, cause circuit damage, fire, or other damage.
- Do not use the phone around flammable gas.
- Do not place the phone in a high temperature or under to prevent injuries or property damage.
- Do not place the phone on unstable surfaces. Phone may fall from a high place and cause injuries to people or damage to the phone. Do not place the phone in the bathroom, around or near water, or in the rain to avoid water damage.
- Use soft, clean, dry cloth to clean the phone, battery and charger.
- Do not use alcohol or harsh chemicals to clean the device. Please use a soft cloth with water to remove dirt and dust. Please use a soft, dry cloth to remove the screen to avoid scratching the screen.
- Do not use the phone while driving or cycling. Attention, do not remove the SIM card.
- Do not use the phone in a place your contact with the charger and your phone may fail to charge properly.
- Modified accessories may damage the device or violate relevant laws and regulations.
- If applicable, the user should turn off OOKIE WIFI in outdoor environment.

Please Keep Your Phone Dry
Please Keep Your Phone Dry

If your phone has been exposed to water, please follow the instructions in Water Damage Prevention.

Some people may get dizzy or experience mental problems in response to flashing lights. If you are at risk, please consult your doctor before using this device. If you have the following

7

symptoms: headache, dizziness, convulsion, seen or muscle cramps, loss of perception, or involuntary movements, please stop using the device immediately and consult your doctor. Parents should pay attention to their children's mental and physical conditions when they use the device.

EU Regulatory Conformance

Hereby, OnePlus Technology (Shenzhen) Co., Ltd. declares that this device is in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: http://www.oneplus.com/eu/ce

Notice: Observe the national local regulations in the location where the device is used. This device may be restricted for use in some or all member states of the European Union (EU).

European Frequency Bands and Power

(a) Frequency bands in which the radio equipment operates: The following frequency bands are used in the EU area. Please consult the local service provider for details.
(b) Maximum radio frequency power transmitted in the frequency bands in which the radio equipment operates: The maximum power for all bands is less than the highest power limit specified in the relevant harmonised standards. The frequency bands and transmitting power (radiated and/or conducted) in which the radio equipment is in the EU area are as follows:
GSM900: 35dBm; GSM1800: 32dBm; UMTS Band 1: 21dBm; UMTS Band 8: 21dBm; LTE Band 1: 21dBm; LTE Band 3: 21dBm; 802.11a/b/g/n: 20dBm; 802.11ac/n: 15dBm; 802.11ac/n: 15dBm; Bluetooth: 10dBm; 802.11a/ac/n: 20dBm; 5GHz band 1:23 dBm
5GHz band 3:23dBm;Bluetooth:14.1dBm

OnePlus Mobile Phone Frequency Bands

OnePlus phones purchased on oneplus.com come with a limited warranty. The duration of this warranty is dependent on the country in which the product was purchased and redeemable within the original country or region. Unless otherwise specified, OnePlus warrants that the hardware components of the product originally supplied and does not cover, or partially covers, software, consumable items, and other items that are not integrated into the main product. The limited warranty only covers product defects caused by workmanship or build materials. For more details, please refer to the Limited Customer Support by visiting oneplus.com/support.

The limited warranty does not cover:

1. Defect or damage resulting from accidents, neglect, improper use, improper installation, improper or incorrect storage, exposure to liquid, moisture, dampness, sand or sand, or other foreign substances, or environmental factors.
2. Scratches, dents and cosmetic damage, unless caused by OnePlus.

8

3) Defects or damage resulting from excessive force or use beyond the limits specified by OnePlus.
4). Devices that have the serial number or the IMEI number removed, defaced, damaged, altered or made illegible or difficult to read.
5. Defects or damage resulting from the use of the product in other than its normal and customary manner, or in any anything/anything equipment not furnished or approved by OnePlus.
6). Any physical failure defects or damage resulting from improper testing, operation, maintenance, installation, or use, or other activities not authorized by OnePlus.
7). Defects or damage resulting from external causes such as collision, fire, flooding, sand and sand, weather, lightning, earthquake, exposure to weather conditions, explosion, war, civil unrest, and other acts of nature.
8). Defects or damage resulting from cellular signal reception or transmission, or viruses and other software problems introduced into the device.
9. Free warranty replacements and repairs are only valid in country of purchase. Other services are available in other countries. Please contact OnePlus Customer Support for more details.

Return Policy (Limited to North America & Europe)

OnePlus products and accessories are made to the highest standards and are guaranteed to be in good condition and satisfied with your OnePlus product for any reason, you may return the product within 15 days of delivery.
Once we approve your request and receive the product, we will give you a full refund. Any shipping and handling fees incurred in the original shipment will not be refunded. Product Return requests made outside of the 15 days period will not be accepted. We may also choose not to accept returns within the specified period.
1. Defects or damages resulting from improper use, abnormal damage, tampering, abnormal adjustment, normal wear and tear, or other non-product defects.
2. Price fluctuations being the sole reason for return.
3. Product returns after the specified period.
In accordance with the U.K. Consumer Rights Act 2015, any goods that are not in conformity with the contract of sale can be returned within 30 days of receipt. Refunds will be issued for charge within 30 days of delivery. Please submit a ticket through the OnePlus Support App or website. If the product is eligible for a refund, you must contact us within 30 days and decline in detail how the goods were defective, damaged, or not in conformity with the contract of sale. We will pay for any of the above mentioned circumstances.
In all cases, we will inspect the product and verify the fault. If the product is determined to be faulty, we will issue a "no-repair" confirmation and include all original contents of the package, including the product, to be returned to the user. If the product returned is deemed to have been damaged, Please contact OnePlus Customer Support to request a

9

return at oneplus.com/support.

Recycling Initiative

We understand that our responsibility doesn't end at selling our products.
OnePlus has been working in the area of safe disposal of electronic waste. Since mobile, tablets and other electronic devices are made of valuable materials, we have a recycling policy as well the legislation passed by the Ministry of Ecology and Environment of the People's Republic of Shengwanzhi & Handling Rules, 2011, which came into effect on May 1, 2012.
OnePlus will work diligently and responsibly with cooperation from customers to reducing the environmental impact of our products. OnePlus will comply with all the applicable laws related to e-waste management.
Please contact your local OnePlus Service Center or partnered with an authorized recycling company in Africa for collection, dismantling and disposing.If waste electronic and electronic equipment, batteries and waste are not just as waste, but as an important resource that can be made useful instead of shunning it as a social and environmental problem, it will be then a fundamental facility for a waste recycling.
For further information about e-waste recycling and our recycling initiative, please contact your local OnePlus Service Center or write an email to info@oneplus.net. Let's work together to make our world better.

Languages & Input

Settings > System > Languages & input > Languages. > Choose your preferenge language.

Mobile phone supports all the below mentioned Indian Official Languages for readability text as per IS 14734:2008 (E) :
ASSAMESE, BENGALI, BODO, DOGRI, GUJARATI, HINDI, KANNADA, KASHMIRI, KONKANI, MAITHILI, MALAYALAM, MANIPURI (BENGALI), MANIPURI (METEI/MEITEI MAYEK), MARATHI, NEPALI, ORIYA, PUNJABI (GURMUKHI), SANTHALI (OL CHIKI), SANTHALI (DEVANAGARI), SINDHI(DEVANAGARI), TAMIL, TELUGU, URDU, ENGLISH.

This mobile supports inputting for below mentioned Indian Official Language as per IS 13479:2009 (E) :
ASSAMESE, BODO, DOGRI

10

This product is in compliance with DIRECTIVE (EU) 1/2/3/EU OF THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION on the restriction of the use of hazardous substances in electrical and electronic equipment and its amendments.
