Safety Warning

1. Adjust a stable and firm position to install the feeder to avoid it from shaking or tipping over.

2. Ensure that the installation environment is dry and away from water sources and damp areas.

3. Before adding pet food, check if the food is suitable for feeding to avoid using deteriorated or unsuitable food.

4. Set an appropriate feeding amount and time, and do not overfeed to prevent pet obesity or indigestion.

5. Observe the pet's eating situation regularly and adjust in time if there is any abnormality.

6. Clean the feeder regularly to keep it clean and hygienic and prevent the growth of bacteria.

7. Pay attention to keeping the battery fully charged at the power connection normal.

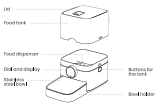
8. These packaging bags may cause suffocation, keep them away from children and pets.

9. Do not use the feeder when the pet cannot reach the food plate or has any physical disability.

10. Do not put your fingers into the food outlet or let your fingers touch the rotor.

11. Do not immerse the base part in water at any time, otherwise it may damage electronic components, such as the control panel.

Product Overview



In the Package

Specifications

Product Name:	F1-W Cordless Pet Feeder with WiFi
Model:	PF06
Size:	11.20"(L)*6.29 inches (285*160*285mm)
Capacity:	3L
Rated Voltage/Current:	DC 5V ⎓1A
Battery Type:	6x 5-1 18650 Li-ion battery
Charging Time:	6 Hours
Battery Run Time:	100 Days
Battery Capacity:	5800 mAh
Wi-Fi Frequency:	2.4GHz
FCC ID:	2ASJH-PF06B
Material:	Lid: SAN Food box: Steel+ ABS

Assemble the Feeder

1. Open the food tank, and take out the bowl and accessories.

2. Lift the front side of the machine, insert the plastic bowl holder into the machine, press down and install it.

3. Lay the machine on its side, insert the power cord into the type-C port, and snap the cord into the wire clip.

4. Turn the power switch to the "on" position.

5. Fill the tank with pet dry food and connect the charging cord to the power supply.

The Desired Amount of Kibbles

Note:
The amount of every portion is not adjustable, Pet owners should adjust the number of portions based on their pet's daily meals and appropriate amount per meal.
The size of the kibble we used in our lab: 0.7 inch, Here is the data from our experiment.

Cup	Portion	Gram
1/2	3	15
1/4	5	29
1/3	7	38
1/2	10	57
1	19	114

This data is for reference only. You need to test out the right amount for your pet, based on the dry food you used.

Here are the steps:

1. For example, 1/4 cup equals to 5 portions, so 1/8 cup would equal to 3 portions.

2. Set the portion number to 5.

3. Measure the dispensed kibbles, if the kibbles are measured as the amount you need, it means this setting is OK.

4. Otherwise, adjust the portion number to let it get close to the desired amount.

Troubleshooting

Please attach your troubleshooting and order ID, contact us via email support@oneisall.com.
We would help you solve the problem fast.

Problems	Solutions
The feeder can not work	Check if the power switch at the bottom of the device is set to the "on" position.
	Check if the cord is connected well.
	Use another type-C charging cord to see if the feeder works.
Desiccant Replacement	Email us: support@oneisall.com
The dial does not work	Try to press and hold it for 3 seconds to unlock the feeder.
Food stuck	Make sure the kibble size is less than 0.7 inch in diameter.
	If the food stop in the outlet, clean it.

Warranty Information

Oneisall offers a standard 2-year warranty. If you have any issues with your Oneisall product, please do not hesitate to contact us. Be sure to include your proof of purchase, model number, and any relevant photos or videos in your message to expedite the process. Our Oneisall support team aims to provide a comprehensive response to your inquiry within 24 hours. Thank you for choosing Oneisall.

Please note that the Oneisall warranty does not apply to used products or purchases made from unauthorized sellers. It is important to be aware that the warranty also does not cover consumable parts such as blades, gaskets, filters, brushes, and other items. These parts may require regular replacement or maintenance.

FCC Statement:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Modifications: Any changes or modifications not expressly approved by the grantee of this device could void the user's authority to operate the device.

This equipment should be installed and operated with minimum distance of 20 cm between the radiator and your body.
