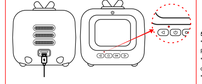
OK Button	①Short press to confirm selection. ②Press to bring up the list.
Back Button	Return to the previous menu.
Mute Button	Toggle sound on/off. (Only works in Story and Music modes.)
Power Off Button	Quick power off button. This button is used solely to turn off the TV via the remote control. When the TV is on, press this button to turn it off. This button cannot be used to turn the TV on. To turn the TV on, use the Power Button on the TV itself.

Operation Guide

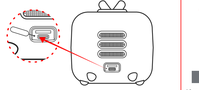
1.Power On/Off:
*Press and hold the ⏻ Power Button on the TV to turn it on or off.
*Press the ⏻ Power Off Button on the remote control to quickly turn off the TV.
*In standby mode, press any button on the TV or press any button on the remote control (except the Power Off Button) to wake up the TV screen.
*If the device does not power on after receiving it, please connect the original charger and charge it for 1-2 hours to activate the device, ensuring the battery is in optimal working condition.
*If the product has not been used for over 20 days, please charge the device for 1-2 hours every 20 days to avoid deep discharge that may damage the battery.
*Before long-term storage, it is recommended to turn off the device and disconnect any external connections, and store it in a dry, cool environment.

2.Remote Control Usage:
*The remote control requires 2 AAA batteries (not included).
For child safety, the battery compartment is secured with screws. Please use a screwdriver (not included) to open the cover and install the batteries correctly, ensuring the correct polarity.

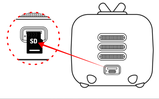
3.Charging Method:
*Connect the TV to a USB power source using a TYPE-C cable for charging. The charging indicator will light up red during charging, and the light will turn off when fully charged (as shown in the image below).



4.Reset Operation:
*If the TV freezes due to incorrect operation, use a thin pin (not included) to press the reset hole to turn the TV off and restart it.



5.Inserting the Memory Card
*Insert the memory card. Make sure to insert the metal contacts first. Push the memory card inward until you hear a click.
*The memory card can only be inserted in one way.Do not force the card in if it will not go in smoothly.
*To remove the memory card, simply push in and the card will eject out.



Main Functions

After turning on the TV, press △▽ ◁▷◁▷ to select a desired function, and press OK to confirm and enter the selected feature.

1.Story Playback
*Press the △▽ ◁▷◁▷ buttons to select between Bedtime, Inspirational, Fairy Tale, or Animal stories. Press OK to confirm and enter the selected story category.
*Press the ◁▷◁▷ button on the TV or the △▽ button on the remote control to adjust the volume. Press the OK button on the remote control to mute the sound. FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1).This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note!: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Instructions for Battery Use

1.For battery power indication, please refer to the illustration.
