Interface Features

Vocabulary Index and Interpretation

Scan to search for words and interpretation. Hold the pen, point at the beginning of the text, and press down gently. Move your pen at a steady pace along with the text, lift the pen at the end of the text to get the result.
The Dictionary Pen supports automatic multi-line scanning. Scanned contents will be translated as complete sentences within 2 seconds as you lift the pen.

Tap and Check

Youdao Dictionary Pen 3 supports quick translation by simply 'Tap and Check'. The pen can recognize and generate the whole word as you press it down gently with target words or phrases included. The high translation accuracy rate, relying on Youdao's dictionary data, greatly improves the efficiency of learning vocabularies.
*Currently available for English and Chinese words.

Phonics Teaching

Learning new words with phonics teaching makes the learning process fun and intuitive. Kids can memorize words with their pronunciation much easier.
*Only available for English words.

Shadowing Practices

Shadowing practices, intelligent oral scoring, and AI pronunciation correction of words and sentences are all supported under both online and offline modes. Personalized pronunciation corrector will help you talk like a native speaker as well.
*Only available for English words.

Wordbook

Vocab flashcards with details and sentence examples are contained in your wordbook, which could stabilize your memories and help enhance your understandings.
Auto-read and auto-play features are also supported.

Audio Materials

Massive Youdao audio materials can be downloaded to the device, covering with contents of all ages from preschool to college. Audio materials support advanced functions like captions, shadowing practices, AB audio repeat, etc. You can also import your own listening resources.
*All Youdao audio materials are in English.

Mobile Interconnection

Youdao Dictionary Pen is interconnected with YoudaoDict App, so the words marked at your Dictionary Pen can be synced with your app through cloud based data and the contents you scanned on your pen can also be displayed on the app with more detailed explanation.

Respecting your privacy is one of our basic policies. We will strictly abide by relevant laws and regulations, and stipulate our affiliates and third-party partners to protect your personal information as what we do based on our agreements. Therefore, in order to provide you with various services of this product, we have your authorization to share the information we collected with our affiliates and partners.

Regulations

FCC Regulations

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference,
(2) This device must accept any interference received, including interference that may cause undesired operation.

FCC ID: 2AVGG-YDP031
Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
(1) Reorient or relocate the receiving antenna.
(2) Increase the separation between the equipment and receiver.
(3) Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
(4) Consult the dealer or an experienced radio/TV technician for help.

CE Regulations

This product and - if applicable - the supplied accessories too are marked with "CE" and comply therefore with the applicable harmonized European standards listed under the RE Directive 2014/53/EU, the EMC Directive 2014/30/EU, the LVD Directive 2014/35/EU, the RoHS Directive 2011/65/EU.

2012/19/EU (WEEE directive): Products marked with this symbol cannot be disposed of as unsorted municipal waste in the European Union. For proper recycling, return this product to your local supplier upon the purchase of equivalent new equipment, or dispose of it at designated collection points. For more information see: www.recyclethis.info.

2006/66/EC (battery directive): This product contains a battery that cannot be disposed of as unsorted municipal waste in the European Union. See the product documentation for specific battery information. The battery is marked with this symbol, which may include lettering to indicate cadmium (Cd), lead (Pb), or mercury (Hg). For proper recycling, return the battery to your supplier or to a designated collection point. For more information see:www.recyclethis.info.

SAR

This device meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health.
Device types YDP031 has also been tested against this SAR limit. The highest SAR value reported under this standard during product certification is 1.56TW/kg for CE, 1.49W/kg for FCC.
