Packing list

Product introduction

①Indicator ②Switch button ③Magnetic wireless charging output ④AC plug input⑤ USB output port ⑥ Type-C input/output ⑦ Lightning input/output

Safety warning

◎The temperature range of this product: 0℃~35℃ ,It is recommended not to charge and discharge at 0℃ and 35℃, and it is recommended do not work in an environment lower than 0℃.
◎Do not put this product into fire or water, and do not allow scalding with a hot cloth, or as not to cause leakage short circuit or other malfunctions.
◎Do not cover or block the product with paper or other objects, which may affect the normal heat dissipation and cooling of the product.
◎Do not use the product arbitrarily.
◎ Do not disassemble the unit by yourself, this product is not fitted with any spare parts that can be disassembled/maintained by yourself.
◎ Do not touch the product with wet hands, to avoid electrical.
◎ Do not short-circuit the positive and negative terminal of the product's inputs or outputs, this may cause the device or external objects to catch fire.
◎ Do not use the product while charging the mobile phone to charge your mobile phone by hanging the power supply with its own cable.
⚠ Please check the product out of reach of children.
⚠ Please check the voltage of the power supply to ensure matches that of the product before using the product so as not to cause damage to the product.
⚠ If the voltage of the charger is not matched, it will cause the mobile power product and lead to smoke, fire and other dangers.
⚠ Please unplug the charger after each full charge of the mobile power product, to avoid the mobile power product from being in small fire, deformation, deformation, leakage and other abnormalities.
Please stop using it immediately.
⚠ Please use the original power adapters for power supply, should purchase power adapters that are CCC certified and meet the standard requirements. power adapter that is CCC certified and meets the requirements of the standard. ⚠ If the product is damaged, please do not disassemble it by yourself, contact the service department and recognize the replacement, not the general public.
⚠ Between shock and be exposed to environments such as sunlight, fire or other excessive heat.
⚠ Do not use after immersion in water.
⚠ Should be disposed of properly when not in use.

Product parameter

Battery level when charging the power supply
Connect to the charger, the indicator light flashes when charging. The first stage of charging, then there is fast charging input, and long light when full. After charging
Power level when charging other devices
Connect the mobile phone to the automatic output to charge the device, the indicator light up, when there is fast charging output fast charging indicator lights up green.

Battery type:Polymer lithium-ion cell
Model Number: TF-D39US
Battery Capacity: 10000mAh / 3.85V / 38.5Wh
Rated capacity:5000mAh (5V⎓3A)
Energy Conversion Rate:≥65%

Adapter Mode
AC Input: 100 ~ 240V AC, 50/60Hz, 0.6A (Max)
USB1Type-C,Lightning Output: 5V⎓2.4A (Max)
Magnetic wireless charging output: 5W (Max)

Mobile Power Mode
Type-C Input: 5V⎓3A 9V⎓2A 12V⎓1.5A
Type-C Output: 5V⎓3A 9V⎓2.22A 12V⎓1.67A 20W (Max)
Lightning Input: 5V⎓2.4A 9V⎓2A
Lightning Output: 5V⎓2.4A 9V⎓2A 12V⎓1.67A 20W (Max)
USB Output: 5V⎓3A 9V⎓2A 12V⎓2.25A 12V⎓1.5A 22.5W (Max)
Magnetic wireless charging output: 5W / 7.5W / 10W / 15W (Max)
Total Output: 5V⎓3A (Max)
PCB:D39AC-F1-V2.0-US

Common problems and solutions

MALFUNCTION	RATIONALE	SOLUTION
The product is charged for a long time, the indicator light is not out when full	1. Insufficient charging time 2. The charger or the product is faulty	1. Charge the product for 12 hours 2. Contact the dealer or after-sales service providers
Cannot view the remaining power	1. The remaining power is full 2. Switch button or indicator light malfunction 3. Power failure of this product	1. Recharge 2. Contact the dealer or after-sales service providers
Cannot charge or power other devices	1. Low battery 2. Conversion cable is not connected to the device 3. The adapted adapter is wrong 4. The mode of charging or power other devices is not set by the power management system of the product	1. Charge the product 2. Replace the conversion cable or connection 3. Find the correct adapter 4. The product cannot be adapted to this device

The name and content of harmful substances in the product

Part name	Harmful substances					
	Pb	Hg	Cd	Cr(+6)	PBB	PBDE
Product casing and other components	○	○	○	○	○	○
Small circuit board and other components	○	○	○	○	○	○

This table is prepared in accordance with the provisions of SJ/T 11364.
○: Indicates that the content of the hazardous substance in all homogeneous materials of the component is below the limit requirement specified in GB/T 26572.
×: Indicates that the content of the hazardous substance in at least one homogeneous material of the part exceeds the limit requirement specified in GB/T 26572.
Note:
1. The parts marked with "×" in the table cannot be substituted for hazardous substances due to the limitation of the global technology development level.
2. Hazardous substances include packaging materials (including printed circuit boards and their parts), electronic components, etc.
3. Depending on the product model, the product you purchased may not contain all the above parts.

It means that the product does not contain a kind of toxic and harmful substances or elements within the effective life cycle. The number in circle is for the future electronic information products, electronic information products pollution control mark, the current cycle of use of the product is 10 years.

Warranty Statement

Disclaimer:
We do not authorize any warranty, position expression or other explanation, the products, specifications and instruction documents in this manual are for reference only, and the contents will be updated from time to time on the website without prior notice.

Warranty Statement
Make the following warranties for the Products attached to this document. If the products are damaged due to quality defects under normal use within the 12 months from the date of purchase, the products will be repaired or replaced for free of charge. Can not be repaired by the manufacturer, free replacement. After repair or replacement, the product will be returned to the original purchaser. Repair or replacement of the product does not extend the warranty period. Warranty does not cover the following: (1) Damage caused by improper use or operating in accordance with the instructions; (2) Damage caused by disassembly, repair or modification by unauthorized personnel; (3) Damage caused by exceeding the warranty period. Warranty is valid for 12 months from the date of manufacture of the product.

Warranty Service
Please contact the product service department first and follow our instructions. When applying for warranty, you need to provide a valid purchase voucher that is accurate, complete and clearly filled out. The above warranties do not apply to:

1. More than three packages of cables;
2. The warranty card and product label are not consistent with the product body;
3. The product is damaged due to improper installation or operation or abnormal use;
4. The product is damaged by force majeure (such as earthquake, war, fire, etc.) or accidents;
5. The product module is damaged due to excessive force;
6. Damage or loss caused by mishandling;
7. Any damage caused by sharp objects;
8. Damage caused by natural disasters such as flooding;
9. Damage caused by unauthorized disassembly;
10. Aging, deterioration, wear, leakage and other losses that occur during the normal use of the product;
11. If the serial number/barcode of the product is changed or damaged, the warranty will be void.

The completeness and appearance of the product and accompanying materials, the product is subject to the purchase of the product on the spot upon receipt of the product and object to any discrepancies.

Nothing in this document affects consumer rights that cannot be excluded or limited by law.

Service supervision hotline: 400-8888-0000

This device complies with part 15 of the FCC Rules.
Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.
Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.
If this equipment does cause harmful interference to radio or television reception,
which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-- Reorient or relocate the receiving antenna.
-- Increase the separation between the equipment and receiver.
-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-- Consult the dealer or an experienced radio/TV technician for help.
The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
