ROBOSHINE i6

Instruction Manual

Huizhou ROBOSHINE Power Technology Co., Ltd.

1.Bluetooth device appearance and function indication diagram

① Magnetic Charging

Magnetic charging function, pay attention to the direction of magnetic attraction when charging

② Control Key

When the device is connected to Bluetooth, press and hold to start recording, release the automatic t ranslation and text conversion! When the device sleeps, press the Control Key to wake up the device

③ Reset Key

Press the Reset Key to restart the device

④ Indicator Light

Sleep/Standby: no light

Bluetooth not connected: blue light flashes

Bluetooth connection successful: the blue light flashes three times

2.Product use process

① Press the Control Key of the device to wake up the device, and the device will flash a blue light at this time;

② Open "Settings" > "Bluetooth" on the mobile phone, and select "Speak Freely" in the list of Bluetooth devices to connect;

③ After connecting, "Speak Freely" shows that it is connected; at this time, the device flashes blue light quickly (indicating that the device is connected).

④ After the device is successfully connected, it needs to be used with the "Speak Freely Pro" APP.

During charging, the red light is always on; when fully charged, the light is off

Tips: The device will enter sleep mode if it is not operated within 10 minutes. You only need to press the Control Key again to wake up the device, and the device will automatically restore the connection with your phone.

2.2 Download and install APP

For Apple iOS, search for "Speak Freely Pro" in the App Store, or scan the QR code to download and install it. For Android phones, search for "Speak Freely Pro" on Google Play, or scan the QR code to download and install it.

2.3 Language Settings

Open the "Speak Freely Pro" application installed on the mobile phone, click the left button "Mandarin" to select and set the Identify Language, click the right button "English (US)" to set the Target Language for translation, there are currently more than 100 languages available for selection.

2.4 Cross application switch

Turn on the Cross application switch, as shown in the figure below:

Android has enabled this mode by default, please see the next step directly.

iPhone needs to manually open this mode, and slide the "picture-in-picture small window" to the right (hide it to the side of the screen).

Then, switch to any application (such as WeChat, QQ, WhatsApp, Facebook, email, memo, etc.), click the text input box, and then press and hold the Control Key of the device, and say what you want to type into your phone, release it after speaking, and the text will appear immediately, the effect is as follows:

2.5 Speech to text

Turn off the Translate switch, as shown in the figure below:

Put the "Speak Freely Pro" application in the background, switch to a third-party application (such as WeChat, QQ, WhatsApp, Facebook, email, memo, etc.), click the text input box and press and hold the Control Key of the device, and say what you want to type into your phone, release it after speaking, and the text will appear immediately, the effect is as follows:

2.6 Speech translation

Turn on the Translate switch, as shown in the figure below:

Click on the text input box, then press and hold the Control Key of the device, point at the phone and say what you want to type into your phone, release it after speaking, and the text in the language you speak and the text that the other party can understand willappear in the text box at the same time

2.7 Device sleep state

The device will go into sleep mode without operation within 10 minutes, press the Control Key once to wake up the device, the device will automatically connect to the previous mobile phone, and the "Speak Freely Pro" application can automatically resume work.(If the " Speak Freely Pro" application cannot resu me normal work, you need to restart the APP again).

2.8 Read aloud

Turn on the "Read aloud" function, as shown in the following figure:

Press and hold the Control Key of the Bluetooth device, say what you want to express, and the phone will automatically broadcast the translated content

2.9 Only display translations

Turn on the "Only display translation" function, as shown in the following figure

When the mobile phone translates the spoken content, the display effect is that the translation is first, and the original words are in brackets. Turn on "Only show translation" to display only the translated content.

Note: You need to turn on the translation to enable the" Only show translation" function

2.10 Show floating window

Turn on the "Show floating window" function, as shown below:

Only request the floating window permission for the first time, then return to the "Speak Freely Pro" app,

At this point, a floating window pops up on the screen of the mobile phone and is placed on top of any third-party application. Press and hold the Control Key to speak, and the original text and translation will be displayed in the floating window in text form. The effect is as follows:

At the same time, you can choose to open or close the Read or Translation on the floating window interface. If you don't want to display the floating window, click the upper right corner to closeit. (This function is only available for Android phones, not Apple phones)

2.11 Text automatic translation

Open the "Speak Freely Pro" application home page interface, set the Source language as your own language, and switch the Target language to the other party's language

When a foreign friend or customer sends a message in English or other languages, press and hold to copy the content, and then switch to the "Speak Freely Pro" application home page interface, the copied content will be automatically entered into the text box, and the content will be automatically translated into the Source language.

2.12Voice automatic translation

Open the "Speak Freely Pro" application home page interface, set the Source language as your own language, and switch the Target language to the other party's language

Press and hold the Control Key of the Bluetooth device, then click to play the voice message, and then release the Control Key until the playback is complete, and the voice translation result will be broadcast immediately.

2.13 Dialogue translation

When talking face-to-face with foreign friends or customers, open the "Speak Freely Pro" app dialogue translation interface, set your own language and the other party's language, then press and hold the microphone button on the screen, speak to the phone, release it after speaking, Immediately the translation will appear and be broadcast.

2.14 Audio and video call:

When communicating remotely with foreign friends or customers, open the "Free Talk Pro" application video call interface, set your own language, the other party's language, and call type, and then click to invite friends to call. Send the invitation link to the friend, and ask them to open this link and join the call. Return to the app and wait for friends to answer.

After connecting, each person speaks their native language, and the app will translate the sounds they hear in real-time, with bilingual subtitles appearing.

Note: If the invitation link is not used for more than five minutes, it will become invalid. Please re invite and send the latest link to your friend.

3. FAQ

3.1 This Bluetooth device is compatible with the mobile phone models of major manufacturers, and realizes the nction through Bluetooth connection control. If the built-in input method of the mobile phone conflicts withthe function of this product, it is recommended to download and install "Baidu input method" to use it together, and the use will be more smooth.

3.2 If there is a conflict between the built-in input method and the function of this product on Android phones of different manufacturers, turn on "Use the on -screen keyboard" to recover (the steps are as follows), Take Xiaomi mobile phone as an example: First open the settings:

Find and click

Click into

Replace the input method with: Baidu Input Method

3.3 Some Android phones can't see the input method keyboard in the input box after installing the APP because some phones turn off the on-screen keyboard by default, and Enable"Use the on-screen keyboard" to estore it (the steps are as follows.)

Take Xiaomi mobile phone as an example: Open Settings→Additional setting→Languages & Input→Keyboard,Mouse...→Enable"Use On-Screen Keyboard" (as shown in the figure below)

Other Android brand mobile phones follow similar steps, and you can also find and enable "Use the on- screen keyboard" in the Languages & Input to restore it.

3.4 The response speed is slow, please check whether the 4G/WiFi network is good.

3.5 When the "Speak Freely Pro" app is running in the background on some Android phones, there is no response when pressing and holding the voice control button, because some phones default to turning off the background self-starting, and you need to turn on the "Speak Freely Pro" Auto launch in background to restore it (the steps are as follows.)

Steps: Settings→Applications&Permissions→Privilege Management→Auto launch→Allow "Speak Freely Pro" to Auto launch in background

3.6 Repeated sentences appear when voice input is converted to text. Solution: Install and use the recommended "Baidu Input Method" together, and the use will be smoother.

3.7 Tutorial for turning off the paste prompt on Apple mobile phones:

Step 1: Open Settings

Step 2: In the settings, swipe to the bottom to find the APP you need. Here we take WeChat as an example to see how to close the pop-up prompt. As shown in the figure below.

Step 3: Enter the APP interface, you can see [Paste from Other Apps] in the bottom column, and the system defaults to [Ask]. Click to enter, as shown in the figure below.

Step 4: Change the status of [Ask] to [Allow], and the prompt pop-up window will not appear again.

If you have the same situation with other applications, please follow the same method as above to find the corresponding application.

4.Installation method

5. Tips

In order to open and use the "Speak Freely Pro" application more conveniently and quickly, after the application is installed, long press the "Speak Freely Pro" icon, and then pull down to the shortcut navigation bar at the bottom of the phone.
