## APPLICABLE DEVICE

This product supports fast wireless charging, which complies with the QI wireless charging standard; it realizes short-distance wireless power transmission through magnetic induction. This device supports all wireless charging devices that meet the QI standard. When using a 5V output adapter , Wireless charging supports 5W load. When using an adapter that meets QC2.0 and above standards,the wireless charging supports 10W load; Support overcharge protection (9V) and overcurrent protection (2A).

## ATTENTION POINTS

- Do not use or store the product in direct sunlight or high temperature places for a long time.
- Do not charge in places too close to magnetic cards, magnetic recording media, and precision instruments.
- Do not disassemble or modify this product.
- Do not touch the AC adapter with wet hands.
- Keep this product away from water or other liquids.
- If you want to clean the product, please disconnect the power.
- Product working environment temperature range: -20～45℃.

## SPECIFICATIONS

**FCC ID:** 2BEPLPYSSWCLED
**Bluetooth ID:** D054893
**Product Material:** Imported ABS + Hardware
**Power Input:** DC5V~9V⎓3A
**Charging Efficiency:** 75%
**Wireless Power:** 15W (WIFI,BTA)
**Speaker Power:** 5WX2
**Battery Capacity:** 1200 mAh
**Product size:** 235 x 115 x 92 mm
**Play Time**: 3 hours

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesirediperation.

FCC Warning Statement
Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF Exposure Statement (Bluetooth)
The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

RF Exposure Statement (Wireless Charger)
To maintain compliance with FCC's RF Exposure guidelines, this equipment should be installed and operated with minimum distance of 20cm the radiator your body.
