BEFORE USE:

- Please use only pure water.
- Avoid using alcohol, essential oils, perfumes, or similar substances.
- Note: When connecting to a power source, ensure you use a 2A charging adapter.

IMPORTANT NOTES

- **Product Testing**: To ensure the product's quality, it undergoes a real water test before leaving the factory. Therefore, it's normal to find a small amount of water droplets inside the product when you receive it.
- **Water Droplet Variations**: The shape and spacing of water droplets may vary from unit to unit. It's normal for each product to produce different water droplets.
- **Startup Delay:** When turning on the device, there may be a 30 to 60-second delay before water droplets begin to form. This is due to air needing to escape from the water pipe. Please be patient and wait for the droplets to appear.
- **Using with Fish:** If using the product with fish, change the water frequently and monitor the water level carefully.

	The power cord is not properly connected	Reconnect the power supply or replace the 5V-2A charging head
Button not moving	Key jam	Replace the 5V-2A charging head
Key failure	**Poor motherboard contact**	**Replace the 5V-2A charging head**

FCC WARNING STATEMENT

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. Theselimits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radiocommunications. However, there is no guarantee that interference will not occur in a particular installation.
If this equipment does cause harmful interference to radio or television reception,which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- - Reorient or relocate the receiving antenna.
- - Increase the separation between the equipment and receiver.
- - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- - Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
RF Exposure Statement
To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance of 20cm the radiator your body. This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.
