Low battery is few: Red light flashes until the device powers off and the light goes out.

FCC Statement

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.
Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1)This device may not cause harmful interference, and (2)this device must accept any interference received, including interference that may cause undesired operation.
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 5cm between the radiator and your body.

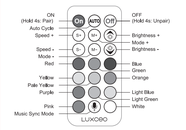
Remote Control Functions



Important Notes:

1. When the light is powered on, the remote control can operate its corresponding functions.
2. Remote Control Pairing & Use: Each product can be paired with a maximum of 6 remote controls.
3. Pairing and unpairing can only be done within 15 seconds after poweron.
4. Longpress the ON key: Pairs the remote control. The light's red indicator will blink twice to indicate successful pairing.
5. Longpress the OFF key: If the remote control is already paired, this unpairs that specific remote control. The light's red indicator blinks twice.
6. If the remote control is not paired, this unpairs all paired remote controls. The light's red indicator blinks twice.
Note: 3 seconds after the light is turned off via its physical button, the remote control will be unable to operate the light.
