User Manual

Tablet PC

AT801UC/AT801UB/AT801PUB

Please read this manual before operating your device
and keep it for future reference.

Since the tablet software updates regularly, the user manual may not cover all aspects of new features.

We would like you to have a safe and enjoyable experience, please read the following instructions and notices before using your tablet.

1. Please fully charge the tablet before the first use.
2. The tablet is not moisture/water-resistant, please don't use it around sources of water.
3. Avoid using the tablet in extremely hot, cold, dusty, damp or wet environments.
4. Do not use alcohol, thinner or benzene to clean the surface of the tablet. Use only cleaning products designed for computer tablet devices.
5. Do not drop or hit the tablet against a hard surface or the screen may be damaged or cracked.
6. Do not use the tablet while driving or walking.
7. While using earphones, if the volume is excessively high it may cause hearing damage. Please adjust the volume to a safe level and moderate use.
8. Do not disconnect the tablet suddenly when updating, uploading or downloading data, this may lead to program errors.
9. Do not dismantle the tablet.
10. Do not use other accessories except specified or provided by the manufacturer(such as the power adapter, battery etc).

Function Overview

- 1. POWER/LOCK
- 2. VOLUME+
- 3. VOLUME-
- 4. RESET
- 5. MIC

- 6. CAMERA
- 7. EARPHONE JACK
- 8. MicroSD CARD SLOT
- 9. TYPE-C

Getting Started

Prior to use, it is recommended to install a microSD memory card (not included, to expand storage capacity) and charge the battery.

Note: A memory card can be installed at any time, it's not necessary to install it prior to using the tablet.

Install The microSD Card

Align the memory card with the micro SD slot, the metal portion of the memory card should be facing away from the LCD screen, then push the card into the slot until you hear a click, this signifies that the card is clicked into place.

Warning: The microSD card can be easily damaged by scratching or bending, so be careful when handling, inserting, or removing the card. Keep all cards out of reach of small children.

Charge The Battery

The tablet comes partially charged, it is recommended to fully charge it before the first use. Connect the USB cable to the adapter, and insert the other end to the type-c port of tablet, then plug the AC adapter into a wall outlet. It will take up to 2 hours to fully charge the battery.

Note: Please leave the tablet in well ventilated area while charging.

Warning: Use only Azeyou-approved charging adapters and batteries. Azeyou accessories are designed to maximize battery life, using other accessories may invalidate your warranty and may cause damage.

Turning On

Press and hold the Power/Lock button until the tablet starts up, the Azeyou logo indicates that the tablet is loading, then choose your language and tap START to set up the tablet following the guide and prompts.

Turning Off

Press and hold the Power/Lock button until the device option menu displays, tap Power off to turn off the tablet.

Restart and Screenshot

Press and hold the Power/Lock button until the device option menu displays, tap Restart to restart the tablet, tap Screenshot to capture a screenshot.

Tips: You can also capture a screenshot by pressing and holding the Power/Lock button and Volume - button at the same time for 1 second.

Sleep Mode, Lock/Unlock Tablet

When the tablet is on, you can turn off the screen to save power, press the Power/Lock button once to turn off the screen and lock the tablet, press it again to turn on the screen, and swipe up to open.

Touch Screen Basics

- Tap the screen once to activate or open something.
- Touch and hold to move an app by dragging.
- Zooming: Double tap quickly to zoom into a webpage, picture, or map. Some apps allow you to zoom in and out by touching the screen with two fingers, and pinching them together.
- Tap a specific location on the screen where you would like to enter text. The on-screen keyboard will pop up.

Home Screen

Home settings and Wallpapers

- Tap and hold your finger on blank space of the home screen, a pop-up menu will be displayed.
- Tap Home settings to enable/disable Add app icons to Home screen and Enable grid options.
- Tap Wallpapers to change current wallpaper from default wallpapers or photos.

Quick Settings

Slide down to reveal notifications and quick settings

-  Enable/Disable Wi-Fi network connection.
-  Enable/Disable Bluetooth connection.
-  Eye health.
-  Auto-rotate: Turn on/off screen auto-rotate.
-  Battery Saver: Turn on/off battery saver.
-  Do Not Disturb: Only get notified by important people and apps.

Slide down to show more quick settings.

-  Screen Brightness: To adjust the screen brightness.
-  Airplane Mode: Turn on/off all wireless network connection.
-  Screen Record: Turn on/off screen record.
-  Nearby Share: Turn on/off nearby share.
-  Edit: To edit quick setting options.

- >User: To add guest, add user.
- Detailed Setting: To enter detailed settings.

Tips: You can also slide up to open the app list on home screen, then tap Settings to enter detailed settings.

Detailed Settings

Network & internet

- Wi-Fi: Enable/Disable Wi-Fi connection, tap to connect to Wi-Fi network, select your Wi-Fi name and enter password to connect it.
- Airplane mode: Turn on/off all wireless network connection.
- Hotspot & tethering: To set USB tethering, Bluetooth tethering and Ethernet tethering.
- Data Saver: Enable/Disable Use Data Saver.
- VPN: To set VPN.
- Advanced: To set Private DNS Mode.

Connected devices

- USB: To set USB computer connection: File Transfer, USB tethering, PTP, No data transfer.
- Pair new device: To check all available Bluetooth devices, and tap the device name to pair it with the tablet.
- See all: To see all previously connected devices.
- Connection preference: Enable/Disable Bluetooth connection, set cast devices, check or add print service, check files received via Bluetooth, share files with nearby devices.

Tips: File Transfer: For file transfer between tablet and computer.

Specification

Display	8"
Resolution	1280 x 800
Operation System	Android™ 11(Go edition)
CPU	Quad-core 1.8GHz
GPU	G52 2EE
RAM	2GB
Storage	32GB
Battery	4000mAh
Housing Material	Plastic
Front Camera	2MP
Audio	Dual loudspeakers
Ports	Type C, microSD slot, Headphone jack
Wi-Fi	Support 2.4G
Bluetooth	BT 4.2
Power Supply	DC 5V/2A

Compliance Information

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

The Bluetooth® word mark, figure mark (stylized "B Design"), and combination mark (Bluetooth word mark and "B Design") are registered trademarks and are wholly owned by the Bluetooth SIG.

Wi-Fi is a registered trademark of the Wireless Fidelity Alliance, Inc.

MicroSD™ and the microSD logo are Trademarks of the SD Card Association.

Google, Android, Google Play, Google Maps and other marks are trademarks of Google LLC.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

15.21 Information to the user.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. 15.105 Information for the user.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connecting the equipment to a socket on a circuit different from that to which the receiver is connected.
- Contact with the provider or a radio f TV technician for help.

Specific absorption rate (SAR):

This Tablet PC meets the government's requirements for exposure to radio waves. The guidelines are based on standards developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a margin of safety designed to ensure the safety of all people regardless of their age or health.

The FCC Statement of Exposure to RF and the SAR limit for the United States (FCC) is 1.6 W/kg average for each gram of tissue. This device was tested for typical operations of use on the body, with the back of the Tablet PC at 0mm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a distance of 0mm between the user's body and the back of the Tablet PC. The use of belt clips, covers and similar accessories must not contain metallic components in their assembly. The use of accessories that do not meet these requirements may not meet FCC RF exposure requirements and should be avoided.

Functioning in the body

This device was tested for typical operations of use in the body. To comply with RF exposure requirements, a minimum separation distance of 0mm must be maintained between the user's body and the telephone, including the antenna. Third-party accessories such as belt clips, covers and similar accessories used with this device should not contain metallic components, accessories that do not meet these RF exposure requirements and should be avoided from use on the body. Use only the supplied antenna or an approved antenna.
