

# Instruction Manual for 8-inch Touch Ordering Machine

Lvhua Ruisheng (Shenzhen) Industrial Technology Co., Ltd.

Dear user: Thank you for purchasing and using this brand 8-inch Touch Ordering Machine. Please check whether the accessories in the box are complete when unpacking. Please read this instruction manual carefully before connecting parts and installing. Please keep this instruction manual for future use.

The touch advertising machine of this product is used in many public places such as buildings, shopping malls, hotels, airports, stations, post offices, banks, hospitals, 4S shops, exhibitions, karaoke, train soft sleepers, airplane seats, etc. Note: Before cleaning the screen of this machine, please turn it off, make sure that the advertising machine is powered off, wipe it gently with a clean, soft cloth without thread ends, and do not use spray directly on the screen. Do not expose the product to rain or sun, so as not to affect the normal use of the product. Please don't block the ventilation holes and sound holes on the advertising machine shell. Never place the advertising machine near radiators, heat sources or any other equipment that may affect normal ventilation. Do not disassemble or repair the advertising machine by yourself to avoid high voltage electric shock or other dangers. Professional maintenance

personnel should be invited to complete all maintenance work. Since

changed, no further notice will be given. The company reserves the right of final interpretation.

#### FCC Warning

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

#### Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
