4 Add device

- Open TuyaSmart APP, click "+" on the top right corner of the page "HOME", then select "Smart Camera".
- Make sure the indicator light on the device is white slowly flashing, then press "Next Step".

- Enter your "Wi-Fi network and password", click "OK".

**4 Add device**

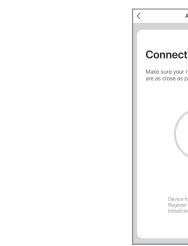

- Read the instruction about "Scan with the camera", click "Continue".

- Scan the QR Code on your phone with camera. Hear a prompt tone, click "Hear the beep".

**4 Add device**

- When the indicator light on the device turns from flashing red light to steady green light, the network configuration is complete.

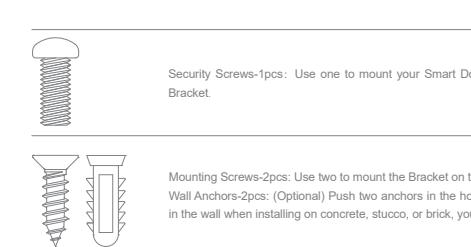

*Please refer to the specific APP interface if there are any difference.

Thank you for purchasing Smart Battery Doorbell. Get started using your new devices by downloading TuyaSmart, one convenient app that manages everything straight from your phone. Easily connect to your home Wi-Fi and control multiple devices from the touch of your fingertips.

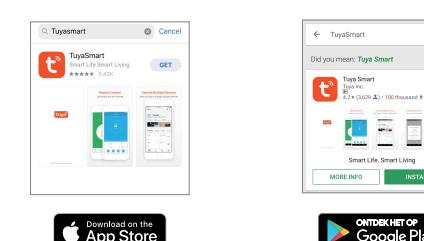

What's in the Box

- Smart Battery Doorbell x1
- User Manual x1
- Back Veneer x1
- Loud speaker x1
- USB Cable x1
- Adapter x1
- Screw bag x1
- Reset Pin x1
- Screw Wrench x1

*: Different products have different accessories, please refer to physical packing.

Screws Bag**Get Ready**

- Know your Wi-Fi network and password
- Make sure your mobile device is running iOS® 8 or higher or Android™ 4.1x or higher
- Make sure you're connecting to a 2.4GHz Wi-Fi network (It can't connect to 5GHz networks)

1 Download the TuyaSmart app from App Store or Google Play.

Security Screws-1pcs: Use one to mount your Smart Doorbell on the Bracket.

Mounting Screws-2pcs: Use two to mount the Bracket on the wall.

Wall Anchors-2pcs: (Optional) Push two anchors in the holes you drilled in the wall when installing on concrete, stucco, or brick, you should.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance between 20cm the radiator from your body. Use only the supplied antenna.
