SP2-4G-2: E-Labelling Screenshots

Spacetalk Adventurer Watch users can access the information in 3 steps:

1) Click Settings

2) Click Information

3) Click Regulatory and scroll down

The Regulatory information of the watch will be displayed upon whether device is paired or not. This information is pre-programmed by Spacetalk and cannot be changed or edited by the users. No special provisions or plug-ins are required to access the information.

An image of the E-Label screen is shown below.
