Solder Board-Component View 1	 A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 1'. The component is rectangular and features various electronic components, including a USB port, a small display, and several integrated circuits. It is placed on a black surface with a white ruler for scale. The ruler shows measurements in millimeters (mm) and centimeters (cm). The component is positioned horizontally, with the ruler's markings visible on the left and bottom edges.
Solder Board-Component View 2	 A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 2'. The component is rectangular and features various electronic components, including a USB port, a small display, and several integrated circuits. It is placed on a black surface with a white ruler for scale. The ruler shows measurements in millimeters (mm) and centimeters (cm). The component is positioned horizontally, with the ruler's markings visible on the left and bottom edges. The text 'Zhipai-v01(20210428)' is visible on the component.

Solder Board-Component View 3	 A photograph showing a small, rectangular, white and yellow component, likely a solderable antenna, placed on a blue textured surface. A black ruler with white markings is positioned vertically to the left of the component, showing measurements from 0 to 100 mm. The component is oriented horizontally, with its longer side parallel to the ruler.
Antenna View	BLE Antenna  A photograph of a green printed circuit board (PCB) with various electronic components. A red box highlights a specific area on the PCB, labeled "BLE Antenna". The highlighted area is a small, rectangular, white component. The PCB also features other components like a USB connector, a LED, and various surface-mount components.
