

EXHIBIT 4 - TEST SETUP PHOTOGRAPHS

Conducted Emission Test Setup	 A photograph showing a conducted emission test setup. On the left, a piece of electronic equipment is placed on a wooden table. To its right, a power supply unit sits on the floor, connected to a wall outlet. A power cord runs from the outlet, through the power supply, and then to a device on a second wooden table on the right. The device is a small, orange and black unit, possibly a test receiver or a power source for the device under test.
Radiation Emission Test Setup (Below 30MHz)	 A photograph of a radiation emission test setup. In the center, a yellow cardboard box is placed on a wooden table. In the foreground, a large, black, rectangular metal frame stands on the floor. A cylindrical metal object is positioned inside the frame. The background consists of a wall covered with white, square-shaped electromagnetic shielding tiles. The floor is dark and reflective.

**Radiation Emission Test
Setup (30MHz to 1GHz)**

**Radiation Emission Test
Setup (1GHz to 18GHz)**

**Radiation Emission Test
Setup (Above 18GHz)**
