I Power on

Plug the device into a power outlet. The LED indicator turns blue.

II Set up

Method 1: Via the WPS Button

1. Press the WPS button on your router.
2. Within 2 minutes, press the WPS button on the device for 2 seconds.

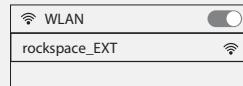

3. Wait until the LED on the device turns blue, indicating a successful connection. If the Signal LED does not turn blue, try again or use Method 2.

Method 2: Via a Web Browser

1. Connect your computer/smartphone to the device's network "rockspace_EXT".

*Note: When you are using a computer, unplug the Ethernet cable if any. When you are using a mobile phone, ensure the mobile data is disabled.

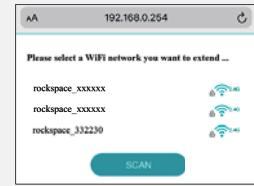

2. The login window pops up automatically. If it doesn't, launch a web browser and enter www.rockspacewifi.com or **192.168.0.254** manually to get started. Create a login password and record it down for later use.

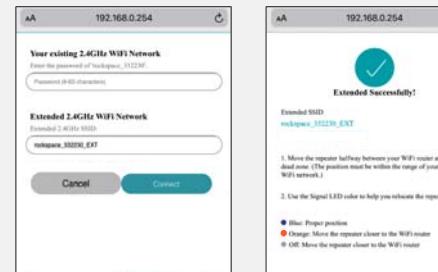

*Note: If the login window does not appear, refer to FAQ > Q1.

3. Select the Wi-Fi network (SSID) you want to extend.

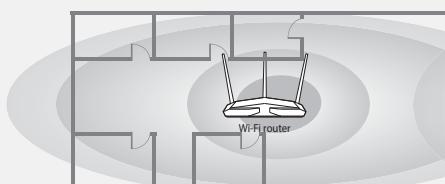

4. Enter the password of the Wi-Fi network you want to extend. Wait until the page shows you a successful connection.

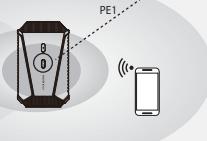

III Relocate

1. Plug in the device roughly halfway between your router and the Wi-Fi dead zone. The location you choose must be within the range of your router.
2. Wait for about 2 minutes until the Signal LED turns blue. If it doesn't, relocate the device closer to the router to achieve better signal quality.

Blue: Proper location
Red: Too far from the router

IV

Wi-Fi connection

Find the SSID (network name) in your Wi-Fi list to connect. The password of the extended network is the same as your current Wi-Fi network.

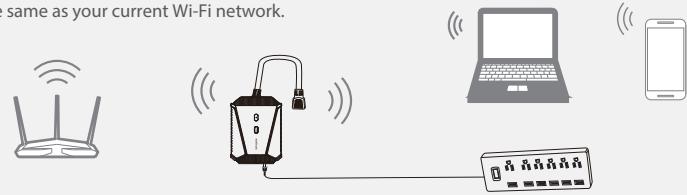

Extended network name:

Router's network name with "_EXT" at the end.

Password:

Same as your router.

Note: If you want to change the extended network name, refer to Manage the Device.

Manage the device

Access extender settings via a web browser

1. Connect your smartphone/computer to the device's network. If you are using a computer, unplug the Ethernet cable if any.

2. Launch a web browser and enter <http://www.rockspacewifi.com> in the address bar to log in.

3. Manage the device as needed.

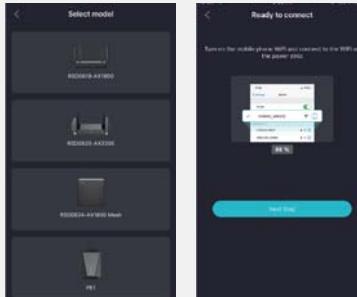

3. Launch the RS Home App and log in.

Note: If you are a new user, follow the onscreen instructions to register.

4. On the homepage, click +.

5. Select the model PE1. Click Next Step.

6. Enter the admin password you set through the web browser.

7. Manage the device as needed.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- > Reorient or relocate the receiving antenna.
- > Increase the separation between the equipment and receiver.
- > Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- > Consult the dealer or an experienced radio/TV technician for help.

This device is restricted to be used in the indoor.

Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Radiation Exposure Statement

This device complies with FCC radiation exposure limits set forth for an uncontrolled environment and it also complies with Part 15 of the FCC RF Rules.

This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Caution:

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

NOTE: (1) The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. (2) To avoid unnecessary radiation interference, it is recommended to use a shielded RJ45 cable.
