

Solder Board-Component View 5	 A microscopic view of a solder joint on a PCB component. The component is labeled "PCB-04260" and "R1". A millimeter ruler is visible in the background, showing measurements from 0 to 100 mm. The solder joint is located at the intersection of the ruler's 0 mm mark and the 10 mm mark.
Solder Board-Component View 6	 A microscopic view of a solder joint on a PCB component. A millimeter ruler is visible in the background, showing measurements from 0 to 100 mm. The solder joint is located at the intersection of the ruler's 0 mm mark and the 10 mm mark.

Solder Board-Component View 7	 A photograph showing a small electronic component, labeled PCB-04260, mounted on a blue textured surface. The component is positioned next to a black ruler with white markings. The ruler has two scales: a vertical scale on the left ranging from 0 to 90 mm and a horizontal scale at the bottom ranging from 0 to 100 mm. The component is located at approximately 10 mm on the vertical scale and 20 mm on the horizontal scale.
Solder Board-Component View 8	 A photograph showing a small electronic component, labeled U31, mounted on a blue textured surface. The component is positioned next to a black ruler with white markings. The ruler has two scales: a vertical scale on the left ranging from 0 to 90 mm and a horizontal scale at the bottom ranging from 0 to 100 mm. The component is located at approximately 10 mm on the vertical scale and 20 mm on the horizontal scale.

Solder Board-Component View 9	 A photograph showing a small electronic component, labeled PCB-04260, mounted on a blue textured surface. The component is positioned next to a black ruler with white markings. The ruler has two scales: a vertical scale on the left and a horizontal scale at the bottom. The component is located approximately at the 10 mm mark on the vertical scale and the 20 mm mark on the horizontal scale.
Solder Board-Component View 10	 A photograph showing a small electronic component, labeled U1, mounted on a blue textured surface. The component is positioned next to a black ruler with white markings. The ruler has two scales: a vertical scale on the left and a horizontal scale at the bottom. The component is located approximately at the 10 mm mark on the vertical scale and the 20 mm mark on the horizontal scale.

Solder Board-Component View 11	 A photograph showing a small electronic component, labeled 'PCB-0A260', mounted on a blue textured surface. A black L-shaped ruler is placed next to the component for scale. The ruler has markings in millimeters (0 to 100) and centimeters (0 to 10). The component is a small, rectangular, gold-colored package with a label that also includes 'CON' and 'UV3'.
Solder Board-Component View 12	 A photograph showing a small electronic component, labeled 'UV3', mounted on a blue textured surface. A black L-shaped ruler is placed next to the component for scale. The ruler has markings in millimeters (0 to 100) and centimeters (0 to 10). The component is a small, rectangular, gold-colored package with a label that also includes 'CON' and 'PCB-0A260'.
