

Solder Board-Component View 13	 A photograph of a white rectangular PCB component, labeled 'UV-1 PCB-0426B', placed on a blue textured surface. The component has several small electronic components (resistors and capacitors) soldered to its top surface. A black ruler with white markings is positioned vertically to the left of the component, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
Solder Board-Component View 14	 A photograph of the same white rectangular PCB component, labeled 'UV-1 PCB-0426B', placed on a blue textured surface. The component has four small electronic components (resistors and capacitors) soldered to its bottom surface. A black ruler with white markings is positioned vertically to the left of the component, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).

Solder Board-Component View 15	 A photograph of a green printed circuit board (PCB) with various electronic components. The board is populated with several integrated circuits (ICs), resistors, and capacitors. It features multiple connectors along the bottom edge, labeled CON1 through CON8. A black USB cable is plugged into CON1. The board is placed on a blue textured surface, and a black ruler with white markings is visible in the background for scale.
Solder Board-Component View 16	 A photograph of a green printed circuit board (PCB) with various electronic components. The board is populated with several integrated circuits (ICs), resistors, and capacitors. It features a USB connector on the left side and a multi-pin connector on the right side. The board is placed on a blue textured surface, and a black ruler with white markings is visible in the background for scale.
