

EXHIBIT 4 - TEST SETUP PHOTOGRAPHS

Conducted Emission Test Setup	 A photograph showing a conducted emission test setup. On the left, a spectrum analyzer sits on a wooden bench. A red cable connects it to a power supply unit on the floor. To the right, another wooden bench holds a small electronic device on a white tray. The background shows a wall with electrical outlets.
Radiation Emission View (Below 30MHz)	 A photograph of a radiation emission test chamber. The interior walls are lined with white, square-shaped electromagnetic absorbers. In the center, a yellowish-green test object is mounted on a rotating platform. A metal frame surrounds the object, and a probe is visible in the foreground.

**Radiation Emission
View (30MHz to 1GHz)**
