

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of a white plastic housing. A green printed circuit board (PCB) is visible, featuring a white RJ45 port at the top and various electronic components. A blue wire is connected to the board. The housing is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler is oriented vertically, with the 0 mark at the top.
EUT Housing and Board View 2	 A photograph showing the internal components of a white plastic housing, similar to View 1 but from a slightly different angle. The green PCB with the RJ45 port and blue wire is visible. The housing is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler is oriented vertically, with the 0 mark at the top.

Solder Board-Component View 1	 A photograph of a small green printed circuit board (PCB) component, labeled 'S1552Q' and 'D011950A', mounted on a blue textured surface. The component is positioned next to a black ruler with white markings. The ruler shows measurements in millimeters (mm) from 0 to 100. The component is approximately 15 mm wide and 10 mm high.
Solder Board-Component View 2	 A photograph of the same green PCB component, labeled 'S1552Q' and 'D011950A', mounted on a blue textured surface. The component is positioned next to a black ruler with white markings. The ruler shows measurements in millimeters (mm) from 0 to 100. The component is approximately 15 mm wide and 10 mm high.
