### Warning: Battery Safety Guidelines

- Never dispose of the battery in a fire, a hot oven, or through mechanical crushing or cutting, as this may lead to explosion hazards.
- Avoid leaving the battery in an extremely high-temperature environment to prevent potential explosions or the leakage of flammable liquid or gas.
- Do not subject the battery to extremely low air pressure conditions, as it may result in an explosion or the leakage of flammable liquid or gas.
- Warning: This device contains a built-in rechargeable lithium battery that cannot be replaced by the user. To ensure continued performance and safety, do not attempt to dismantle or replace the battery yourself. For product support, please contact Zildjian Consumer Care at [zcustomercare@zildjian.com](mailto:zcustomercare@zildjian.com). Failure to adhere to these guidelines may result in damage to the device, personal injury, or fire hazard. Operate and store the device in accordance with recommended usage and disposal guidelines. Always dispose of the device properly according to local regulations.

RECYCLING This product bears the selective sorting symbol for Waste electrical and electronic equipment (WEEE)

## FCC STATEMENT

WARNING: Any changes or modifications to this device not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with the FCC radiation exposure limits set forth for an uncontrolled environment. This device must not be co-located or operated in conjunction with any other antenna or transmitter.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

## IC STATEMENT

This device complies with Industry Canada licence-exempt RSS standard (1). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Cet appareil est conforme à la norme RSS sans licence d'Industrie Canada. Son fonctionnement est soumis aux deux conditions suivantes : (1) cet appareil ne doit pas provoquer d'interférence et (2) cet appareil doit supporter les interférences, y compris les interférences susceptibles de provoquer un fonctionnement inattendu.

This Class B digital device complies with Canadian ICES-003.

Cet appareil numérique de classe B est conforme à la norme ICES-003 au Canada.
