

# Safety Human Exposure

## 1.1 Radio Frequency Exposure Compliance

### 1.1.1 Electromagnetic Fields

RESULT:

Pass

**Report No.** : CN230M8W 003  
**Test Specification**  
Test item : True Wireless Stereo Earbuds  
Identification / Type No. : WIRTWSSGRPRM, WIRTWSBKPRM  
: Note: The product difference on the color only.  
FCC ID : 2A2KIWIRTWSBKPRM  
Test standard : CFR47 FCC Part 2: Section 2.1093  
FCC KDB Publication 447498 v06

#### Measurement Record:

The minimum distance for the EUT is less than 5mm.

Since maximum peak output power of the transmitter is 2.50 dBm  $\approx 1.78$  mW  $< \frac{3*d}{\sqrt{f}} = 9.52$  mW.

Hence the EUT is excluded from SAR evaluation according to FCC KDB Publication 447498 D01 General RF Exposure Guidance v06.
