## Magnetic External Mobile Power Supply

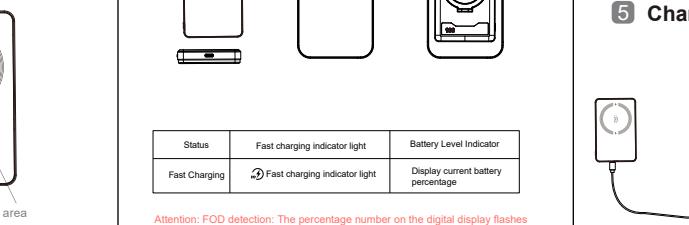

Model: L12

### USER MANUAL

#### 1 Specifications

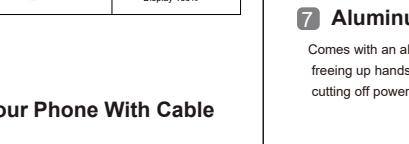

Total output: 20W(Max)  
Energy conversion: 60%(5V/2A)  
Capacity:5000mAh(3.85V/19.25Wh)  
Rated capacity: 3000mAh (5V==2A)  
USB-C Input: 5V==3A,9V==2.22A,12V==1.67A  
USB-C output: 5V==3A,9V==2.22A,12V==1.67A  
Wireless charging output: 5W/7.5W/10W/15W  
(supports Apple Watch and headphone charging)  
5000mAh Size: 67.0X103.6X10.3MM  
Storage Temperature: -20-60°F  
Protocol compatibility: QC/PD and other multiple protocols

#### 2 Product Overview

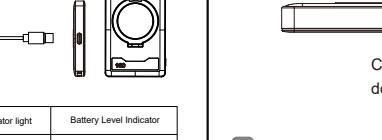

Attention: FOD detection: The percentage number on the digital display flashes at a frequency of 1 second

#### 3 Charging Your iPhone

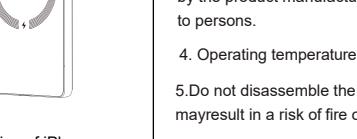

To begin wireless charging, place charger on the back of your phone as illustrated below.

#### 4 Charging Your Device While Recharging Your Portable Charger

Both the protective phone case and the position of your device on the wireless charger will affect the charging speed. The farther it is placed from the center of the wireless charger, the slower the charging speed will be.

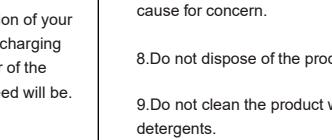

#### 5 Charging Your Phone With Cable

Wireless charging supports the charging of iPhone, iWatch and AirPods; Type-c output supports charging for all phones, watches,headphones, tablets, and other devices.

The instant adjustable bracket can be charged horizontally/vertically

#### 6 Recharging Your Portable Charger

Wireless charger is only compatible with Magsafe compatible phones.

7. When charging a device, the product may warm. This is a normal operating condition and should not be cause for concern.

8. Do not dispose of the product in a fire.

9. Do not clean the product with harmful chemicals or detergents.

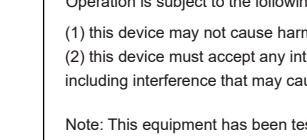

10. When disposing of secondary cells or batteries, keep cells or batteries of different electrochemical systems from each other.

11. Be aware that a discharged battery may cause fire or smoke. Tape the terminals to insulate them.

**7** Aluminum alloy bracket

Comes with an aluminum alloy folding bracket for stable support, freeing up hands and allowing you to play while charging without cutting off power

#### 8 On switch schematic diagram

7. When charging a device, the product may warm. This is a normal operating condition and should not be cause for concern.

8. Do not dispose of the product in a fire.

9. Do not clean the product with harmful chemicals or detergents.

10. When disposing of secondary cells or batteries, keep cells or batteries of different electrochemical systems from each other.

11. Be aware that a discharged battery may cause fire or smoke. Tape the terminals to insulate them.

**9** Compatible with multi-device charging

Magnetic wireless charging supports a maximum of 15W output. The final receiving power of each mobile phone varies

1. Store the product in a cool, dry place.

2. Do not store the product in a hot or humid environment.

3. Use of a power supply or charger not recommended by the product manufacturer may result in a risk of injury to persons.

4. Operating temperature should be between 0°C to 40°C.

5. Do not disassemble the product. Incorrect reassembly may result in a risk of fire or injury to persons.

6. It's recommended to recharge the battery once every 3 months.

#### FCC STATEMENT:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

**10** Important Safety Instructions

Note: This equipment is intended and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

#### FCR EXPOSURE STATEMENT:

The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure conditions without restriction.
