IQ sound®

To avoid short-circuiting the speakers

- Short -circuiting of the speakers may damage the system. To prevent this,make sure to take the following precautions when connecting the speakers.

- Make sure the stripped end of each speaker cord does not touch another speaker terminal or the stripped end of another speaker cord.

Inserting Batteries into the Remote Control

The system can be controlled using the supplied remote. Insert two batteries by matching the + and - on the batteries. When using the remote, point it at the remote sensor on the front panel of the system

1. DVD menu setting

Press the <SETUP> button on the remote controll , the SETUP MENU (main) will be displayed.

1. After accessing the SETUP Menu, press the direction buttons for up and down movement to select an item desired, then press the < ↵ > button to confirm your entry and move to the sub-menu.Use the left and right direction buttons to move the pointer, and the up and down direction buttons to select the option desired. Also, press the < ↵ > button to confirm your selection. Now, setup of this current function is completed.

2. To end the setup, press the SETUP button again. In the SETUP MENU, you may choose any of the following options as you like.

1.1 GENERAL SETUP

This menu is used to set up TV screen format, video functions and DVD functions, with options of "TV Display", "Angle Mark", "Osd Language", "Captions", "Screen Saver"," HDCD","last Memory".

1.1.1 TV form

Follow the operating instructions stated in "DVD MENU SETUP" in combination with the desired option In the following figure.
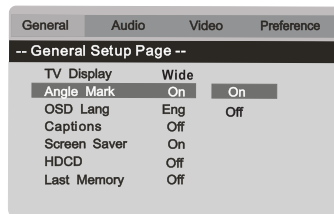

Note:

1). No matter what screen format you have selected, if your screen displays in 4:3 format, the picture will be shown in that format anyway.

2). For DVDs, the screen format is convertible.

3). If your screen displays in 4:3 format, when a DVD with 16:9 display format is used, the picture will be flattened.
