

Model difference statement

The product name of this application is: Mobile power adapter

Main model: DLH-8690A

Additional model: DLH-XXXXY (DLH: the name of the manufacturer; XXXX: any combination of numbers 0-9 and letters A-Z or blank, representing the model of the mobile power adapter; Y: numbers 0-9 and letters A-Z or blank Any combination means the customer-specific packaging, appearance and color, and does not affect the safety performance of the product;

Charger mode

Input: 100-240V~, 50/60Hz, 0.4A

Output: USB-A output: 5V/3A, 9V/2A, 12V/1.5A

USB-C output: 5V/3A, 9V/2.22A, 12V/1.67A

USB-C + USB-A simultaneous output: 5V/3A

Mobile power mode:

USB-A output: 5V/3A, 5V/4.5A, 9V/2A, 12V/1.5A

USB-C output: 5V/3A, 9V/2.22A, 12V/1.67A

USB-C + USB-A simultaneous output: 5V/3A,

Wireless charging mode:

Wireless charging output: 15W(Max)

USB-C + USB-A + wireless charging simultaneously output: 5V/3A

The circuit principle, electrical design, and key components used in each model are the same.

Only the model name is different, and the difference does not affect the product test results.
