⚠ Note: Please use the WiFi gateway provided in the box or any other Tuya core WiFi gateway.

(1)Step 1

Turn on the WiFi and Bluetooth on mobile phone. (Fig.6)

(2)Step 2

Activate the WiFi process.

Power on the WiFi gateway and hold the button on the back for 5s. (Fig.7)

The indicator light on the gateway turns to the blue and twin blue. (Fig.7)

① member input invitation code, add a family member is finished. (Fig.5)

8. BATTERY INFORMATION

When the red light is on the battery slot, it should be replaced with a new one within a week to ensure the lock works properly. The lock need to connect to the Tuya APP to check the battery level, in order to protect for a long time. (Note: This lock does not use other types of batteries, or do not mix old and new batteries.)

(Note: This door lock is not equipped with a USB charge for information security. Please replace the battery in time when the red light is on/off in a week to bring the risk of not being able to open the door. The red light does not mean the battery is completely drained. The mechanism of the lock is not damaged, so the lock can still work. Please don't mix old and new batteries in the room.)

Replace the Batteries. Remove the two screws shown in the picture with a screwdriver, take out the battery box, replace the old batteries according to the positive and negative marks of the battery, then replace the battery box and connect the lock to the power. The new batteries will provide you with about one year of service.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.

ISED Statement

- English: This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) This device may not cause interference, and (2) This device must accept any interference, including interference that may cause undesired operation of the device.
- French: Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes: (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement. L'appareil numérique du ciem conforme canadien peut - 3 (b) / nmb - 3 (b).

This device meets the exemption from the routine evaluation limits in section 2.5 of RSS 102 and compliance with RSS 102 RF exposure, users can obtain Canadian information on RF exposure and compliance.

cet appareil est conforme à l'exemption des limites d'évaluation courante dans la section 2.5 du cnr - 102 et conformité avec rss 102 de l'exposition aux rf, les utilisateurs peuvent obtenir des données canadiennes sur l'exposition aux champs rf et la conformité.

This equipment complies with Canada radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with minimum distance 0cm between the radiator & your body.

Cet équipement est conforme Canada limites d'exposition aux radiations dans un environnement non contrôlé.

Cet équipement doit être installé et utilisé avec une distance minimale de 0 cm entre le radiateur et votre corps.
