| <p>Back panel: </p> <p>Upper Panel: </p> <p>Front Panel: </p> <p>5.0 CONNECTION AND OPERATION Before Installation, please make sure all devices you wish to connect have been turned off. 1) Connect the audio source device to the Converter using appropriate or Coaxial cables. 2) Connect the A/V Receivers or Amplifiers to the Converter using appropriate R/L cable.</p> | <p>3) Insert the DC side of 5V power supply into the converter and then connect the AC side of the power supply into the wall outlet Note: When connected to the Toslink and Coaxial cables at the same time, the product will give priority to Toslink input. Attention: Insert/ Extract cable gently.</p> <p>5.1 CONNECTION DIAGRAM</p> <p></p> | <p>BT How to connect Bt Long press the mode button for 2-3seconds to open the Bt mode. When the light is flashing, it means the Bt is ready to repair. After connected, the light is always on.</p> | <p>This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation</p> <p>This device has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This device generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.</p> | <p>However, there is no guarantee that interference will not occur in a particular installation. If this device does cause harmful interference to radio or television reception, which can be determined by turning the device off and on, the user is encouraged to try to correct the interference by one or more of the following measures: --Reorient or relocate the receiving antenna. --Increase the separation between the device and receiver. --Connect the device into an outlet on a circuit different from that to which the receiver is connected. --Consult the dealer or an experienced radio/TV technician for help</p> <p>Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment</p> |

For optimum performance and safety, please read these instructions carefully before connecting, operating or adjusting this product. Please keep this manual for future reference</p> <p>1.0 INTRODUCTION This Digital to Analog Audio Converter is designed for either home or professional audio switching. It converts Coaxial or Toslink digital audio signals to analog L/R audio and available for connection to an external device such as an amplifier via standard RCA-style jacks. This Converter is small in size and quite easy to install.</p> <p>1.1 FEATURES This Converter has many features that enable it to perform in a superior manner among those features you will find: - Converts Coaxial or Toslink digital audio signals to analog L/R audio - Supports sampling rate at 32KHz 44KHz 148KHz 192KHz - Provides electromagnetic-noise-free transmission. Easy to install and simple to operate.</p> | <p>Car Audio to Bt</p> <p></p> <p>GPS HF Wireless Music</p> | <p>FN103-01</p> <p></p> |
