

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of an EUT housing. A white, L-shaped plastic housing is positioned vertically. To its right, a small, circular printed circuit board (PCB) is visible, featuring various electronic components and a gold-colored surface. A black ruler with white markings is placed horizontally below the components, showing measurements in millimeters. The background is a blue, textured surface.
EUT Housing and Board View 2	 A photograph showing the internal components of an EUT housing from a different angle. The white, L-shaped plastic housing is positioned vertically. To its right, a small, circular printed circuit board (PCB) is visible, featuring various electronic components and a gold-colored surface. A black ruler with white markings is placed horizontally below the components, showing measurements in millimeters. The background is a blue, textured surface.

Solder Board-Component View 1	 A microscopic view of a small, circular, green printed circuit board (PCB) component mounted on a larger green PCB. The component is positioned on a blue, textured surface. A black ruler with white markings is visible in the background, showing measurements in millimeters (mm). The ruler has markings for 10, 20, 30, and 40 mm.
Solder Board-Component View 2	 A microscopic view of a small, circular, green printed circuit board (PCB) component mounted on a larger green PCB. The component is positioned on a blue, textured surface. A black ruler with white markings is visible in the background, showing measurements in millimeters (mm). The ruler has markings for 10, 20, 30, 40, 50, 60, 70, and 80 mm.

Solder Board-Component View 5	 A photograph showing a yellow surface-mount component, likely a battery, soldered onto a blue perforated PCB. The component is labeled with 'V0L 1CR5/24', '250R11 0.13301', and '45240 3.6V 1036'. A black ruler with white markings is placed below the component for scale, showing measurements in millimeters.
Antenna View	BT Antenna  A photograph showing the internal components of a white cylindrical device. A red line points from a label 'BT Antenna' to a small yellow component inside the device. The component is labeled 'L-M-0'.
