Fast Ethernet network port.

Amber LED: On when 100Mbps Ethernet is connected, blinking when signal is transmitting or receiving.

Green LED: On when 10Mbps Ethernet is connected, blinking when signal is transmitting or receiving.

**⑩****AES / EBU**

Digital audio output that carries S/PDIF digital audio format with 110 ohm balanced cable. Pin assignments:

PIN 1: Ground (G)

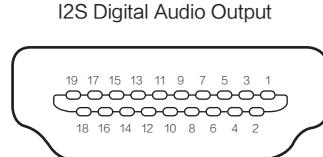

PIN 2: Positive (+)

PIN 3: Negative (-)

**⑪****I2S**

Digital audio output that supports native differential digital audio signal in LVDS signal standard with HDMI cable.

Pin assignments as below figure.

- PIN1 : SDATA - / DSD L-
- PIN2 : GND
- PIN3 : SDATA + / DSD L+
- PIN4 : BCK + / DSD CLK +
- PIN5 : GND
- PIN6 : BCK - / DSD CLK -
- PIN7 : LRCK - / DSD R -
- PIN8 : GND
- PIN9 : LRCK + / DSD R +
- PIN10 : NC
- PIN11 : GND
- PIN12 : NC
- PIN13 : NC
- PIN14 : NC
- PIN15 : NC
- PIN16 : NC
- PIN17 : GND
- PIN18 : NC
- PIN19 : + 3.3V OUTPUT

**⑫****COAXIAL**

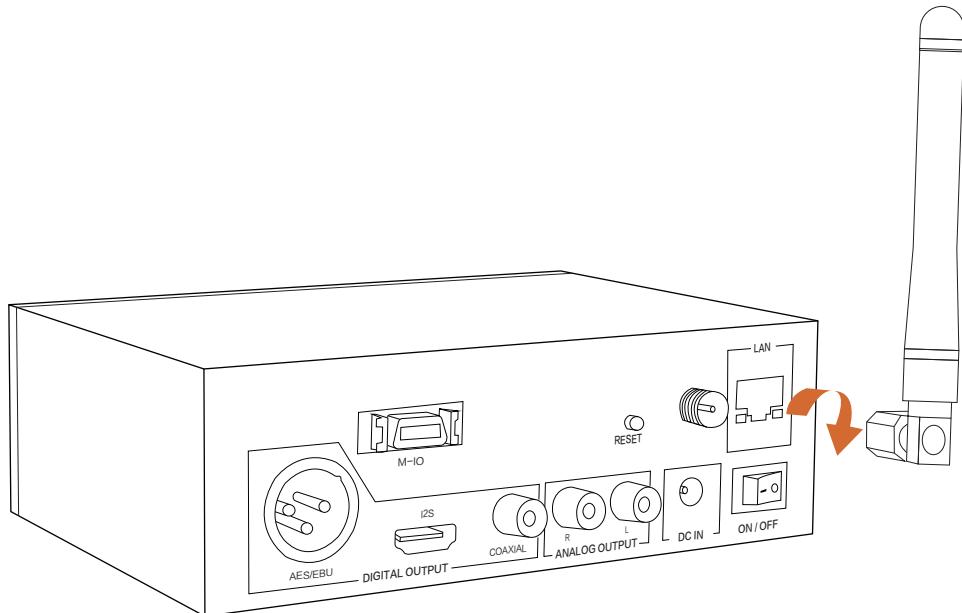

Digital audio output that carries S/PDIF digital audio format with 75 ohm coaxial cable.

**⑬****RCA (L+R)**

Analog audio output that carries 2VAC

## Assemble Antenna

See the picture below, equipping the antenna to enjoy Bremen B1's wireless functionalities (Wi-Fi & Bluetooth).

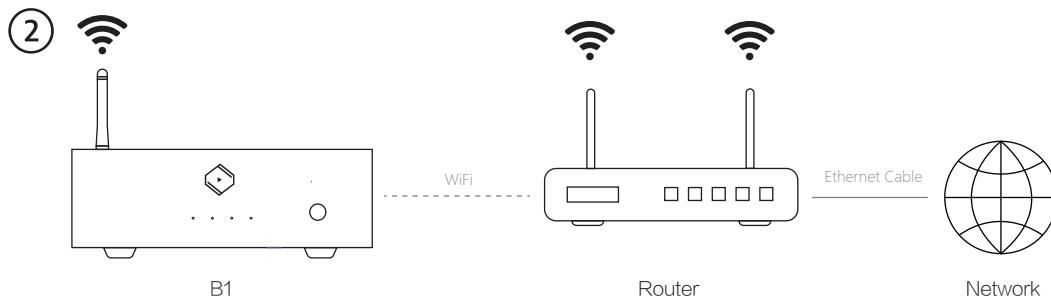

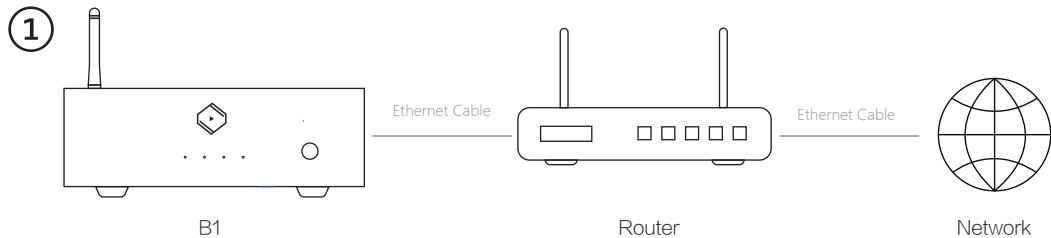

## Signal Connections

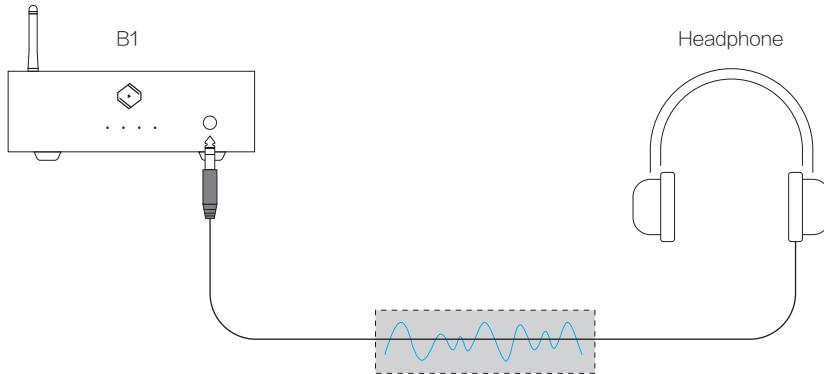

Make sure all audio devices are powered off.

B1 supports Wi-Fi connection and Fast Ethernet connection. Hence, when wiredEthernet is connected, the Wi-Fi will be turned off; when wired Ethernet is not connected, the Wi-Fi will be turned on.

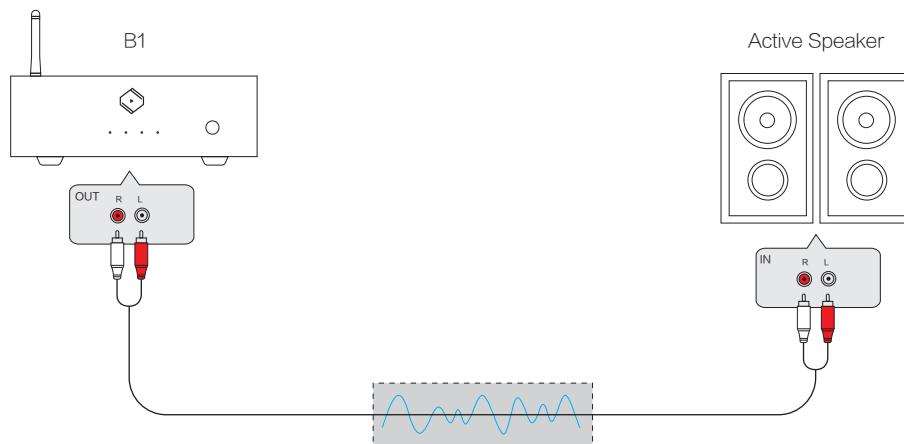

## Audio Applications

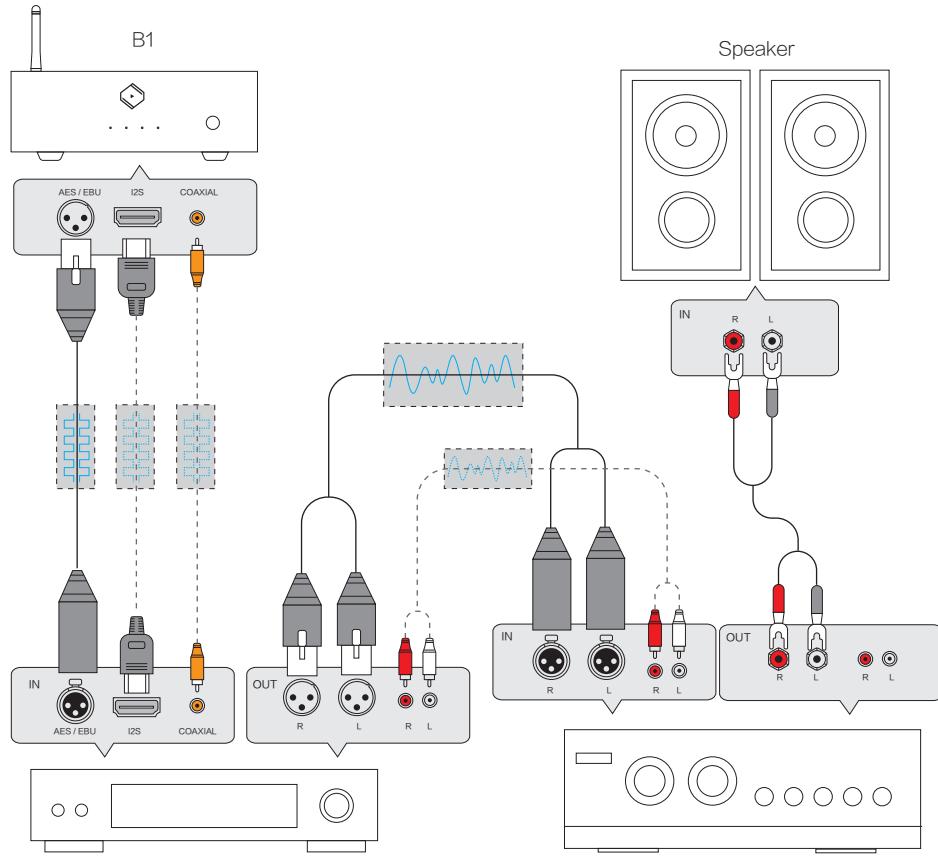

①

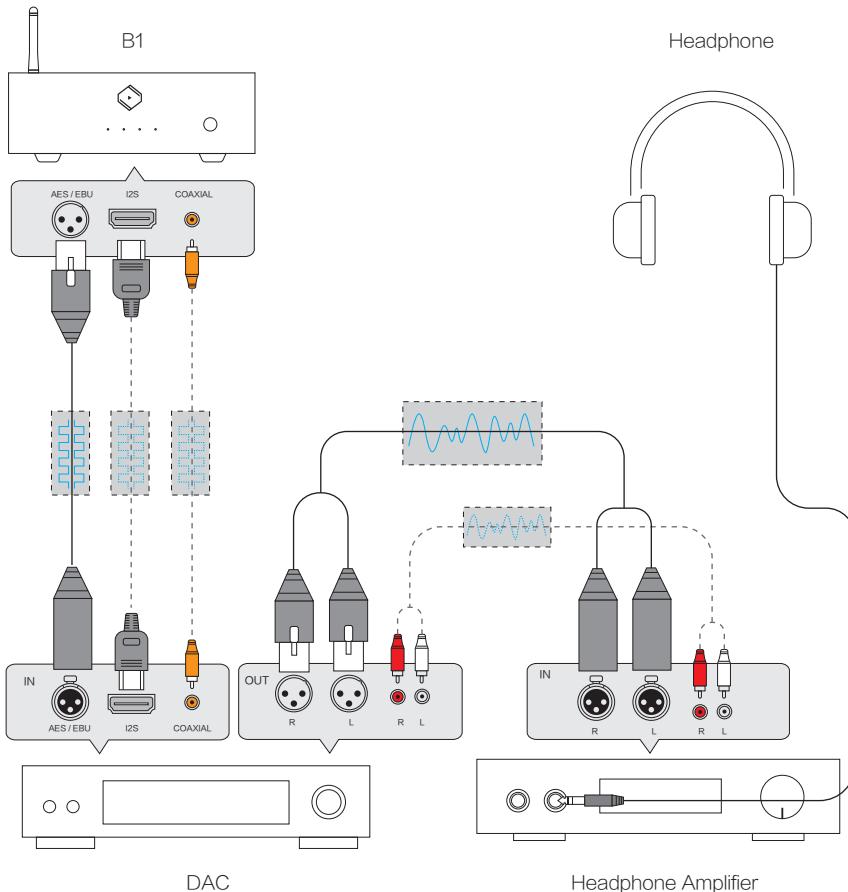

②

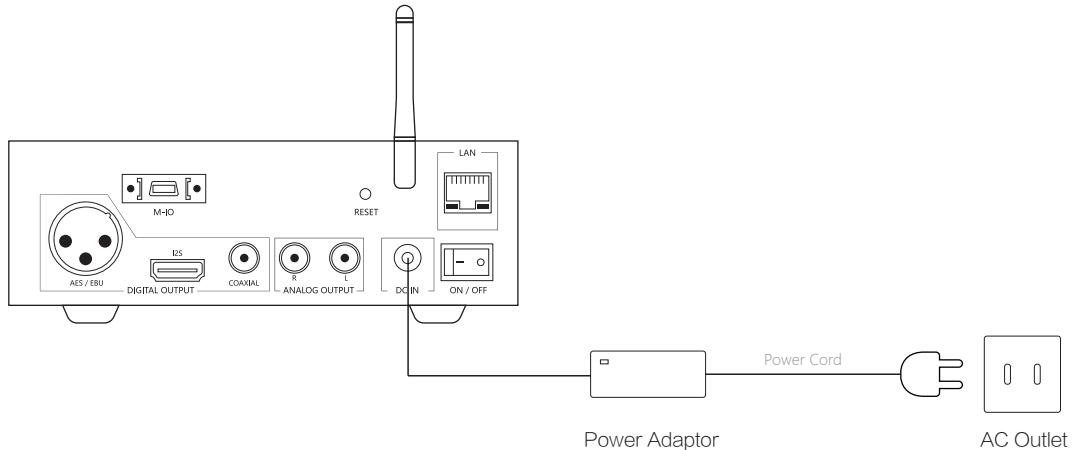

3

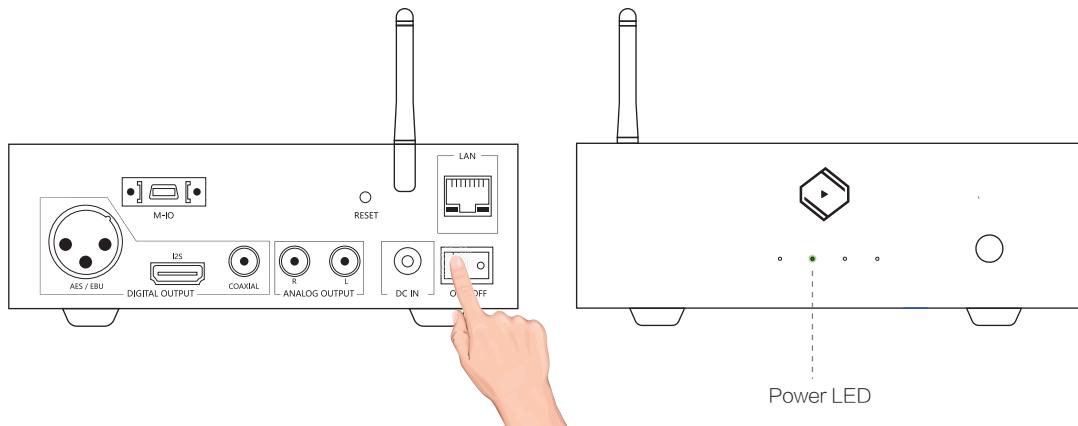

④

## Power Connections

## Power On

## Install “VitOS Lite” App on a Pad or Phone

Use below QR code to install “VitOS Lite” app on a pad or phone.

 Download on the  
App Store

 GET IT ON  
Google Play

 android 

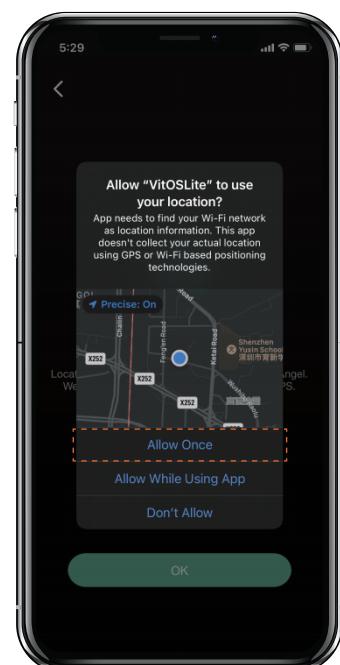

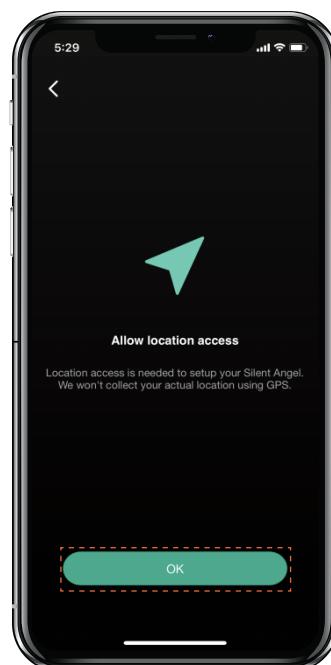

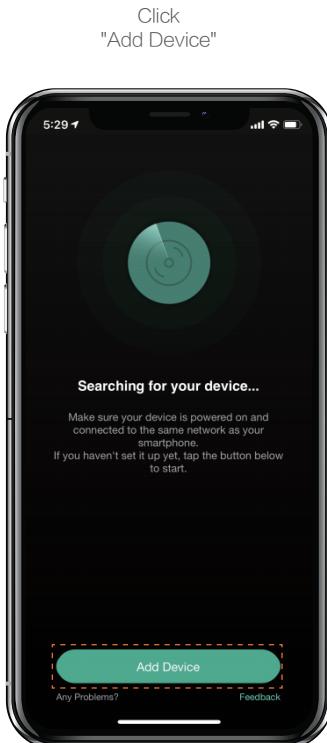

## ① Using IOS device to connect

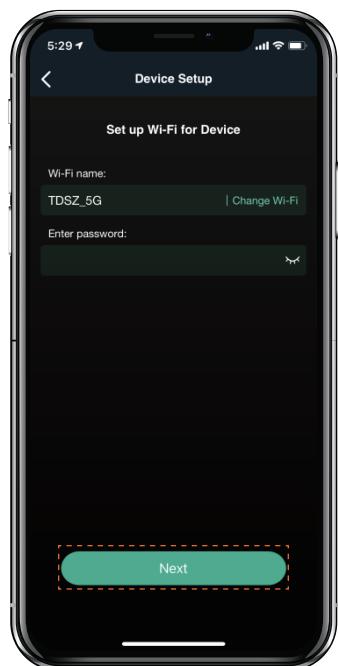

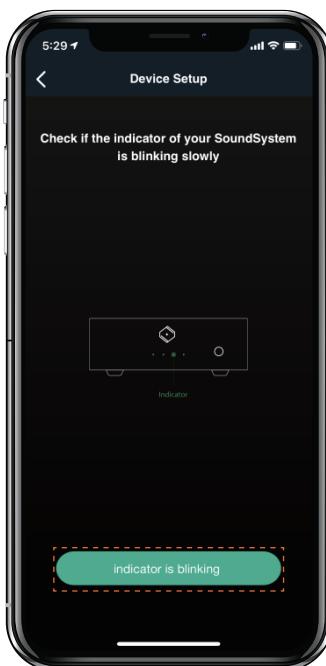

With Fast Ethernet Connection

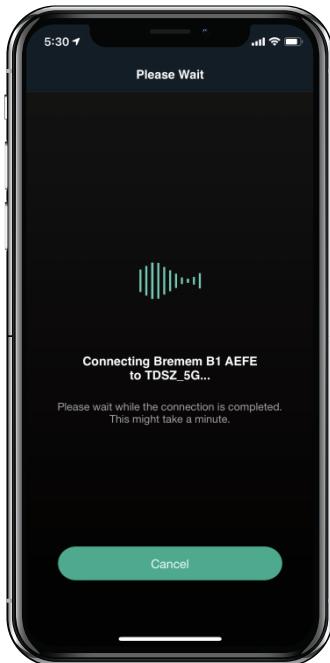

## With Wi-Fi Connection

Use the VitOS Lite to discover and setup the Wi-Fi setting of Bremen B1.

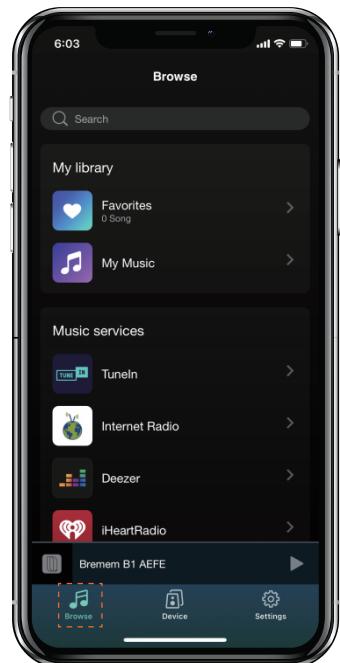

Wait for B1 to connect to the Wi-Fi network

Found B1 in "Devices" page

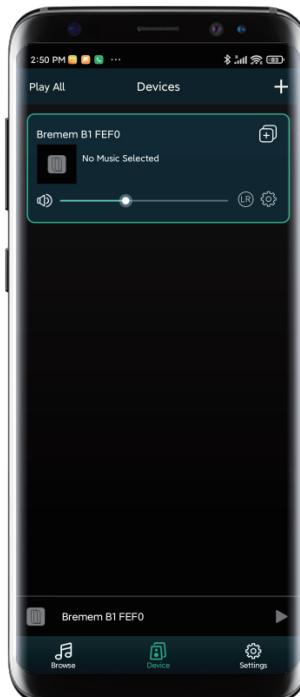

Click "Browse" to enter main menu

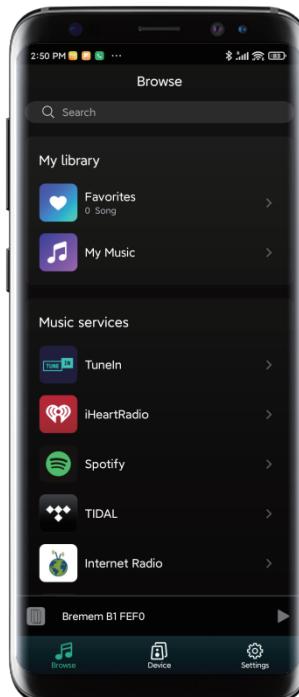

## ② Using Android device to connect

With Fast Ethernet Connection

Finding B1 in  
“Device” page

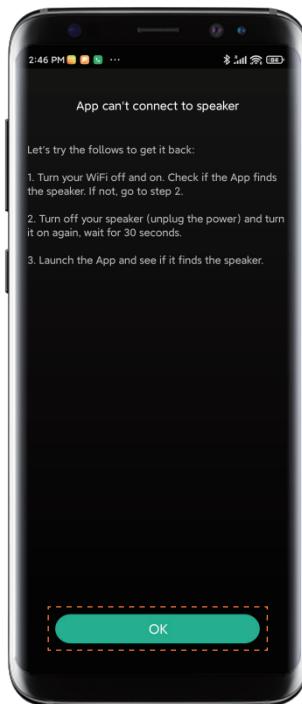

Press “Browse” to  
enter main menu

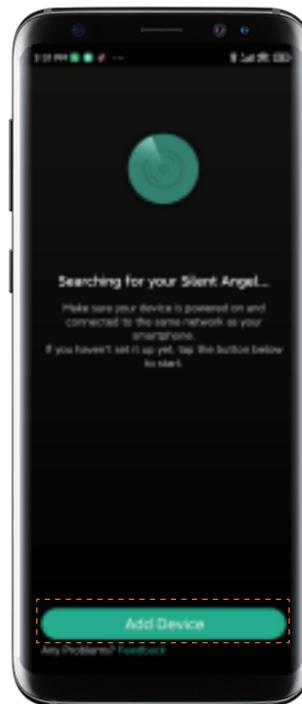

## With Wi-Fi Connection

Searching and configuring Bremen B1's Wi-Fi settings with Vitos Orbiter

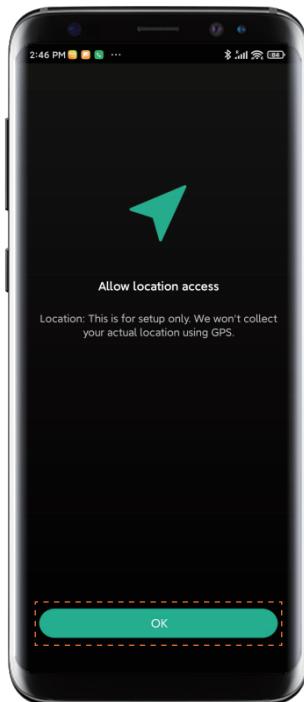

Press "OK"

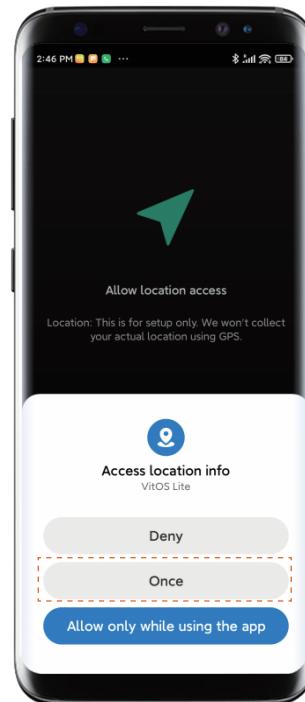

Press "Add Device"

Press “OK”

Press “Setup this device”

Press “indicator is blinking”

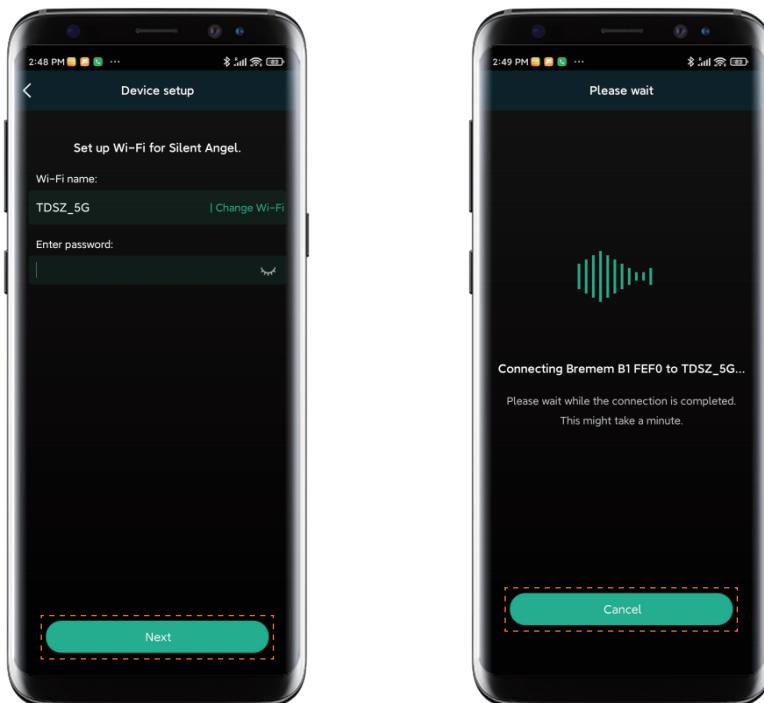

Press “Setup this device”

Enter Wi-Fi password,  
then press “Next”

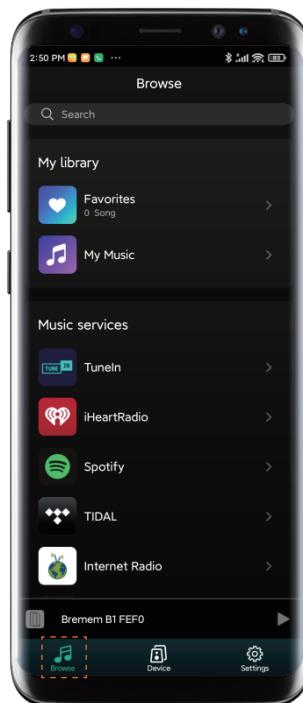

Wait for the connection  
completed

Finding B1 in  
“Device” page

Press “Browse” to  
enter main menu

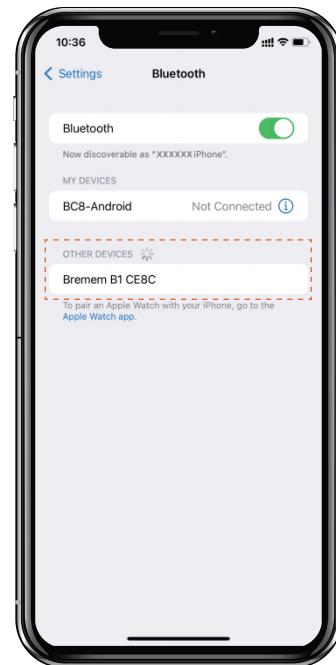

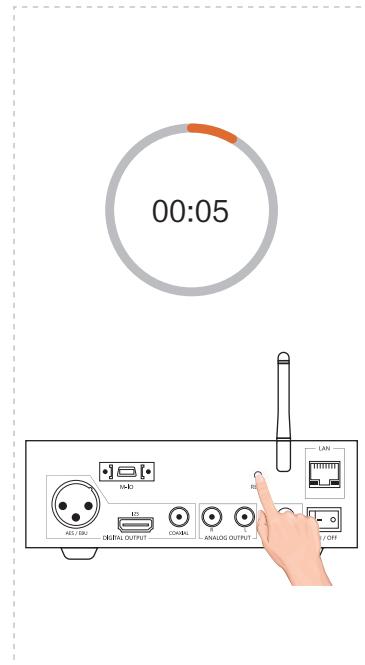

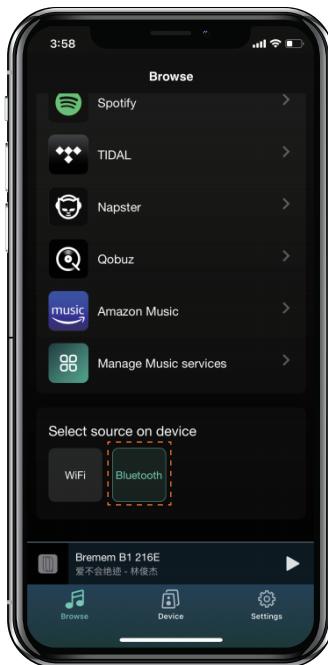

# Use Another Device to Connect Bluetooth

Click "Bluetooth" to enter Bluetooth mode

Press the "RESET" button at rear panel, and wait for 5 seconds to process

Discover Bluetooth Device "Bremen B1 XXXX" and connect

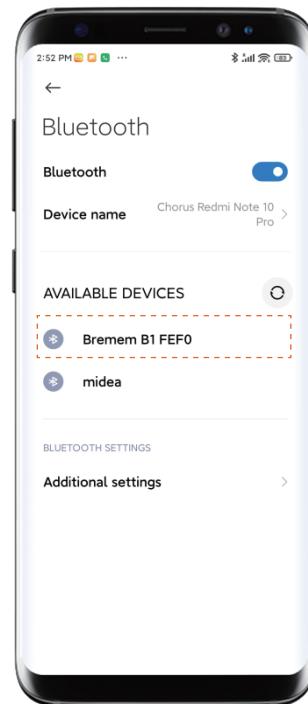

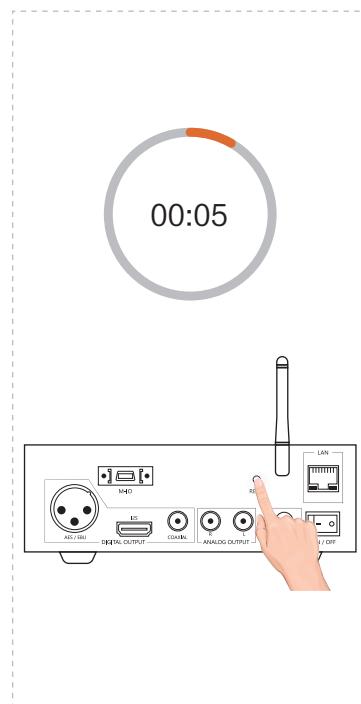

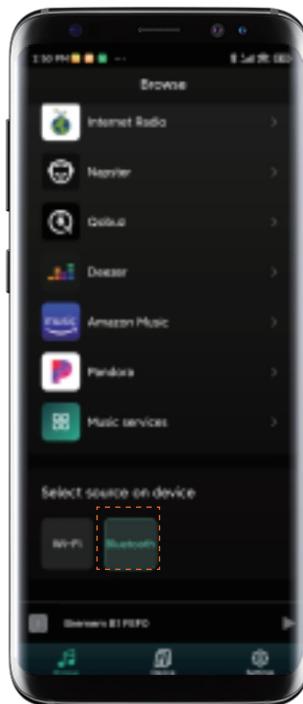

## Bluetooth Connection

Press “Bluetooth” to setup

Press the “reset ” button on the rear panel, and wait for 5 seconds

After processing, discover and connect the available device  
“Bremen B1 XXXX”

#### FCC Warning

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

#### Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
