

INSTRUCTIONS**01/Safety tips**

- 1.Do not put foreign metal objects in the charging area between the watch and wireless charger, which will lead to latent danger.
- 2.Do not put magnetic stripe cards (such as credit cards, telephone cards, bank cards, etc.) or some medical equipment (such as pacemakers or hearing aids) together with this product, which may cause damage to the magnetic stripe or abnormal operation of the equipment.
- 3.Do not apply heavy pressure ,and place it out of reach of children or animals.

02/Warranty

The warranty does not apply to the following:

- 1.Damage caused by the force majeure.
- 2.Failure or damage of the product caused by human factors.
- 3.Warranty expired.

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party

responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the

limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against

harmful interference in a residential installation. This equipment

generates, uses and can radiate radio frequency energy and, if not

installed and used in accordance with the instructions, may cause

harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a

particular installation. If this equipment does cause harmful

interference to radio or television reception,

which can be determined by turning the equipment off and on, the user

is encouraged to try to correct the interference by one or more of the following measures:

– Reorient or relocate the receiving antenna.

– Increase the separation between the equipment and receiver.

– Connect the equipment into an outlet on a circuit different from that

to which the receiver is connected.

– Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, This

equipment should be installed and operated with minimum 20cm

distance between the radiator and your body. Use only the supplied

antenna.
