IMPORTANT SAFETY INSTRUCTIONS

- Please read and understand all instructions before using this device.
- Don't change any settings that are not described in this manual.
- Warranty does not apply if personal injury, data loss, or damage occurs as a result of failure to follow instructions.

⚠ Warnings

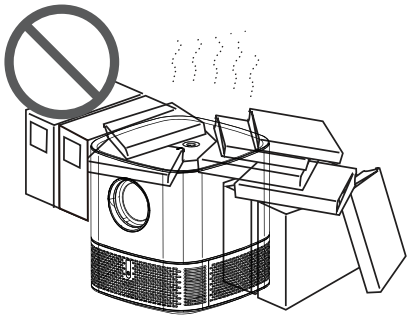
- To reduce the risk of fire or electric shock, do not expose the device to rain or moisture. Objects filled with liquids, such as vases, should not be placed on the device.
- To prevent overheating, do not block or clog the ventilation openings.
- To avoid device damage or fire explosions, the air inlet/outlet/lens should be well ventilated when the projector is working.
- Never place the device in a confined space. Always leave enough space around the device for ventilation.
- Keep minimum (19.68 inch) space around the appliance for optimal ventilation.
- Do not place the device in areas susceptible to excessive dust and dirt or near any appliance generating a strong magnetic field.
- Protect the device against direct sunlight heat, large temperature fluctuations, and moisture.
- When the device runs for a long time and the surface becomes hot, shut it down and unplug the power cord. Resume operation only after the device has cooled.
- Always handle the device with care. Avoid touching the lens.
- Never place heavy or sharp objects on the device or the power cord.
- To avoid electric shock, do not disassemble the projector by yourself.
- Only use attachments or accessories specified by the manufacturer.
- Avoid extreme vibration. It may damage the internal components.

- Do not put any hazards into the accessories.
- Do not use the projector in the following cases or it may pollute optical elements, reduce product life, and the projection image will be dark:
  - Wet, dusty, smoky places.
  - Places where the temperature is above 104°F.
- A layer of moisture will form inside the device to cause a malfunction in the following cases:
  - If the device is moved from a cold place to a warm place.
  - After a cold room is heated.
  - When the device is placed in a damp room, please seal the device in a plastic bag to avoid moisture.
- To avoid hearing damage, do not listen for extended periods at high volume. Set the volume at a safe level.
- Do not allow children to handle the device without supervision.

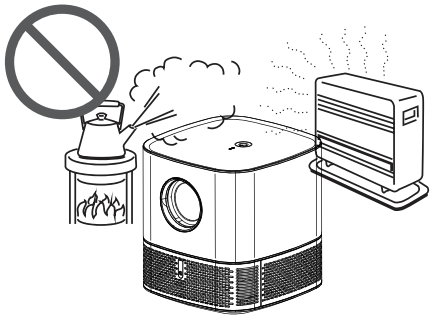
Power Supply

- Power off the device before removing the power supply from the socket.
- Protect the power cord from being walked on or pinched, particularly at plugs, convenience receptacles, and the point where they exit from this device.
- Unplug this device if there are lightning storms or when unused for a long time.
- Where the mains plug or an appliance coupler is used as the disconnect device, the disconnect device shall remain readily operable. Before you make or change any connections, ensure that all devices are disconnected from the power outlet.
- Never touch the power cable or the power connection with wet hands.

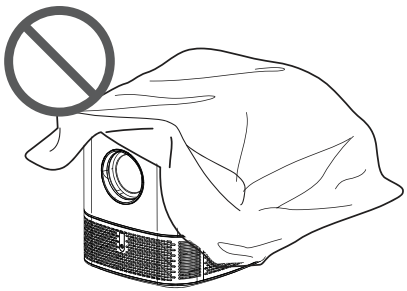
SAFETY NOTICE



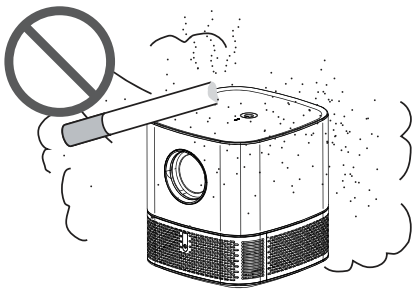
Do not install in unventilated places.



Do not install in high temperature or humid places.



Do not block the ventilation holes (intake or exhaust)



Do not install in dusty or smoky places.
