Troubleshooting

- **No display after power on?**
Confirm your device is connected to the TV well and set the correct HD Input from your TV configuration.
- **TV has images but no sound?**
Make sure your TV is not in mute and low volume.
- **Fail to connect to the network?**
Make sure the Ethernet cable is properly connected, Make sure Wi-Fi is functional and your tv stick has a strong enough signal from your router.
- **Remote control failure?**
-Replace the battery of the remote control with a new one, and make sure it is placed in the correct polarity.
-Make sure the remote control is within the range of the tv stick.
-Go to the Setting menu to unpair and re-pair the remote control.
- **Please use our accessories to avoid any risk.**

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-Reorient or relocate the receiving antenna.
-Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20cm between the radiator & your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

This device complies with part 15 of the FCC Rules.Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

Note: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.
