

<p>H96Max M1Plus</p> <p>User Manual</p> 	<p>Safety instructions</p> <p>WARNING!</p> <p>Presence of live parts inside the device! Do not open. Risk of electric shock!</p> <p>No parts should be repaired by users.</p> <p>Place the device on a flat, firm and stable surface. Do not put it on a carpet or rug.</p> <p>Place the device in a well-ventilated location to prevent the accumulation of internal heat.</p> <p>Protect the device from high temperatures, humidity, water and dust.</p> <p>Do not place any objects near your device that may damage it (e.g. liquid-filled objects or candles).</p> <p>Do not mix old and new batteries and Do not mix alkaline, standard (carbon-zinc) or rechargeable (ni-cab, ni-mh, etc.) batteries.</p>	<p>Accessory List</p> <p>Please open the package and check the following accessories:</p> 	<p>Hardware Structure</p> <p>Product Interface Introduction</p> 	<p>Remote Control</p>  <p>Note: Press the Google Assistant button to start voice searching for what you want.</p>	<p>Installation Steps</p> <ol style="list-style-type: none"> 1. Connect the TV BOX to your TV with a HD cable. 2. Connect the TV BOX with power supply. 3. For wired connection, plug in Ethernet cable from the TV BOX to your modem or router. For wireless, choose your Wi-Fi network and input the password. 	<p>Bluetooth Pairing Method</p> <p>For the first pairing please place the remote control near the box. Press and hold the [LEFT] and [RIGHT] buttons on the remote control for about 10 seconds at the same time, and you will see the red light on the remote control constantly flashing, then release it to automatically enter pairing mode.</p> <p>For second pairing (Bluetooth reconnection), press any button on the remote control to reconnect.</p> 	<p>Remote Indicator Status</p> <p>1. Infrared status: When infrared is emitted, the LED blinks 2 times continuously when the key is pressed; the LED goes out when the key is pushed up.</p> <p>2. Bluetooth status: When sending Bluetooth, the LED will be on when the button is pressed; the LED will be off when the button is pushed up.</p>	<p>Features</p> <p>OS: Android 13.0 CPU: Quad Core ARM Cortex-A53 GPU: Mali-450 WIFI: WiFi6 HD: Support 8K video decoding USB Port: USB2.0*2 BT: 5.0 Ethernet: 100M AV: Support DC: 5V/2A</p> <p>Troubles hooting</p> <p>Under no circumstances should you attempt to repair the TV Box yourself as this will void the warranty. Do not open it as there is a risk of electric shock. If the TV Box fails, please check the points listed below before sending the TV Box for repair. If you are unable to resolve the problem following the prompts, consult your dealer for assistance.</p>	<p>Troubleshooting</p> <ul style="list-style-type: none"> No display after power on? Confirm your device is connected to the TV and set the correct HDMI input from your TV configuration. TV has images but no sound? Make sure your TV is not in muted mode. Fail to connect to the network? Make sure the Ethernet cable is properly connected. Make sure WiFi is functional and your box has a strong enough signal from your router. Remote control failure? Replace the battery of the remote control with new ones, and make sure it is placed in the correct polarity. Make sure the remote control is within the range of the TV box. Go to the Setting menu to update or re-pair the remote control. Please use our accessories to avoid any risk.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
