

The sustainably made true wireless earbuds

But how is this possible? I mean, this was plastic waste!

Yes. But when it comes to the most common used materials we're collecting, for instance PET bottles, this waste already had food grade during its first lifecycle. After collecting it, our local teams are washing and sorting the plastic which is then shredded into flakes. After this step, the innovative technology we have developed with the Swiss University of Applied Sciences OST, takes over. We transform these flakes into pellets in a pure mechanical process, neither chemicals nor virgin plastics are being added. We use the latest technology and apply physical methods (vacuum, decompression, degassing, melting) to transform waste and extend the molecular chains of these wasted polymers. The result is a strong, clean and reliable material.

Your earbuds come pre-set as below but you can customise to how you want through the boomPods APP

If not connected earbuds will power down after 5 mins

Battery Level

Battery level 100%/80%

Battery level 80% - 50%

Battery level Below 20%

Charge Earbuds

Charge Case

Reset

In the unlikely case of any pairing problem
Place earbuds into charging case and go to the BoomPods App and select Reset.

Further enhance your experience by downloading the BoomPods App, go to the App store.

Battery
35mAh Built-in Lithium Battery

Case battery
350mAh Lithium Battery

Charge time
1.5 hrs

Frequency
20-20 KHz

Microphone Type
MEMS Omni-directional

Sensitivity
-42±3dB @1kHz

Mic frequency range
100Hz-10kHz

Operating temperature
-10-45C

Bluetooth
V5.3

IPX Rating
IPX 4

Play time
4.5 hrs (1 charge) total 20hrs

The Declaration of Conformity can be found at:
https://www.boompods.com/product/baseline_compact
Hereby, BoomPods declares that the radio equipment type [Earphone with Bluetooth] is in compliance with Directive 2014/53/EU.
FCC ID: 2A36Q-SKIM

FCC STATEMENT :

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

This device may not cause harmful interference, and

This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
