COVERT CANS

Wireless Bluetooth Gaming Headset

Summary

Eluktronics Covert Cans is a new type of gaming headset with low power consumption and low delay via Bluetooth 5.0. This headset features MP3, AAC audio protocol, DSP high-quality digital audio decoding and other control protocols. Users can easily and quickly enjoy high-quality music or switch to a low delay mode to enjoy game action and sound synchronization. Other features include a 3D sound effect for an immersive feeling, an illuminated icon with the ability to turn off via a sequence of two buttons for a more professional appeal or back on when you're ready to show off your gamer side.

What's in the Box

- ◆ Covert Cans Wireless Bluetooth Gaming Headset
- ◆ Removable Microphone
- ◆ USB Type-C Charging Cable
- ◆ User Manual

Product Parameters

Model: Covert-Cans-BT
Product Name: Covert Cans Wireless Bluetooth
Gaming Headset
Transmission Distance: 15M (Without Obstacle)
Battery: 3.7V 1,000mAh
Voltage:DC 5V
Input Current: 300mA

Charging Time: Approximately 3 Hours
Playback Time: 20 Hours (Depending on use)
Frequency Response: 20Hz~20kHz
Speaker Specifications: Ø50mm / 32Ohm
Speaker Sensitivity: 120dB±3dB
Delay: 65ms (Low Latency Mode)

General direction for use

1.Bluetooth Connection

The first time your new gaming headset is powered on, the headset will automatically enter in to pairing mode. The LED light on the power button will flash blue and red. Open the settings of the Bluetooth device you wish to establish a connection and select <Covert Cans> within the device list. Once the device is connected, the headset will automatically attempt to connect to the last device utilized every time it is powered on. Laptops typically require you to reconnect via your Bluetooth settings in Windows, but mobile devices such as a phone will likely re-establish the connection. The headphones will dictate "Connected" if the pairing was successful. To pair to another device, open the Bluetooth settings on the connected device and unpair or turn off the Bluetooth. Note, some devices may ask for a password, the default password for the Covert Cans is "000".

2.Operation Power ON/OFF

Hold the power button for 3 seconds to power ON/OFF.

Play / Pause

Tap the power button to pause/play the music.

Volume Adjustment

Tap the + button to increase the volume.
Tap the - button to decrease the volume.

Song Selection

Hold the + button to switch witch to the next song.
Hold the - button to switch to the previous song.

Call

Tap the power button to answer a call, tap it again to end the call.
Hold the power button for 2 seconds to reject the call.

Mode Switch
3D Sound Effect mode: Tap the "mode switch" button to turn this feature OFF/ON.
Low Latency Gaming mode: Hold the "mode switch" button to turn this feature OFF/ON.
Last Number Redial
Double tap the power button to redial the last number.

Eluktronics Illuminated Icon ON/OFF Switch

Hold the + and - buttons together at the same time to disable the blue Eluktronics icon LED lighting and enjoy a Covert Gaming experience. Press the same buttons together again when you're ready to show-off your gamer side. By default, the Eluktronics icon will always illuminate when you power on the headset.

3. Charging

There is a warning tone when the battery is low. If the battery is too low, the headset will automatically turn off. Recharge it with the included USB Type-C. The LED will display a red light while charging and a blue light when charging is complete. To protect the battery, charge once every month even if the headset is not in use.

4. Tips & Special Notes

Inserting a 3.5mm audio cable in to the AUX port will turn off the headset and switch to auxiliary state. The microphone requires power and can not function while this auxiliary cable is plugged in. Other functions will not be available while this AUX cable is plugged in.

The headphones cannot be charged and utilized at the same time. We packed a gigantic battery in here so you should be able to enjoy plenty of time away from the cord, but just keep this in mind. The approximate battery life can typically be seen in the Bluetooth device section in Windows.

Our website is www.Eluktronics.com. Please select "Contact Us" and select "Technical Support" when filling out the form for any technical questions or issues should you need further assistance with your new Covert Cans.

If you've just read the whole manual, bravo! If you just skimmed through everything and caught our fun packed finale sentence, go back to the start you cheater! You must be one of those Candy Land players that skips to an extra color when no one is looking... Okkk, so now that you reread everything, you're now finally a pro and ready to put your Covert Cans to good use. Enjoy!

FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- - Reorient or relocate the receiving antenna.
- - Increase the separation between the equipment and receiver.
- - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- - Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement.
