

Vi™ Wall Mount Phone Charger

INSTALLATION INSTRUCTIONS

Part#: VPH

PARTS NEEDED:

Wall Mount Phone Charger

Power Supply

IMPORTANT SAFETY INSTRUCTIONS

Interior use only.

Electrical ratings:

24V AC | 1.2A

Charging Capacity: Wireless: Up to 10W

USB-A - 5V / 2.4A / 12W

USB-C - 5V, 9V, 12V, 20V / 3A / Max 60W

FCC Statement:

This device complies with Part 15 of the FCC rules. Operation is subjected to the following two conditions:

(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment.

FCC Radiation Exposure Statement

The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. The equipment should be installed and operated with minimum distance 15cm between the radiator & your body.

FCC VOC

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Only radiated measurements are used to show compliance with FCC limits for fundamental and spurious emissions.

1. Wall Mount Version:

Attach screws (not provided) to wall. Slide wall plate onto screws.

Plug the charger into the power supply. Plug the other cord into the power supply and then plug into the wall.
