Hand warmer instruction manual

1. Long press the key switch for 3 seconds to start the Hand warmer function. The set value is 52C°. At this time, it starts heating and displays the real-time temperature. Press and hold again for 3 seconds to shut down.
2. After starting the machine, press the button switch and start the sound. You will hear "Hello, master". At this point, the touch function opens, touching the chicken nose, you will hear a voice, and the eyes flicker. Touch again to switch another confession voice. The color of the eyes is red, yellow, pink and color in turn. At the same time, the three confession voices are switched in turn. To turn off the touch sound function, just press the key switch.
3. When the hand warmer turn on, the mobile phone bluetooth is connected to AL-NSB-021. Select the device to pair and connect the mobile phone bluetooth. At this time, enter the bluetooth audio mode. In the bluetooth mode, if the touch function is turned on, the touch sound effect takes priority. Touch the key switch to turn off the touch function, turn off the hand warmer function, and turn on the bluetooth status display "bt".
4. Open the key protection cover, the USB output port can charge the mobile phone and other external devices, and the display screen displays the real-time power. When the power is lower than 25%, the digital display screen flashes, indicating that the power is too low and the hand warmer needs to be charged.
5. The hand warmer charging through the type-C input port. During charging, the digital display screen flashes. When it displays "100" and no flashing, indicates that the charging is finish.

FCC Statement

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
