

INDICATOR

Status	Power Light(Red)	Working Light(Blue)
Flash	Low Power	Power On
Keep Light	Charging (Full electric light turns green)	Complete Connected

SPECIFICATION

1. Transmitter

Wireless Transmission:	Digital 2.4GHz
Frequency:	2400-2483.5MHz
Working Distance:	50m(LOS)
Audio Input Electronic Level:	<100dBV
Output Power:	<10mW
Power Required:	USB 5V
Battery Type:	6.0Ah Lithium Battery
Charging Time:	About 2h
Working Time:	About 12h

2. Receiver

Wireless Transmission:	Digital 2.4GHz
Frequency:	2400-2483.5MHz
Working Distance:	50m(LOS)
Latency:	10ms
RF Sensitivity:	<10dB
Power Required:	USB 5V
Battery Type:	6.0Ah Lithium Battery
Charging Time:	About 2h
Working Time:	About 12h

2 In 1 USB Cable

INSTRUCTIONS

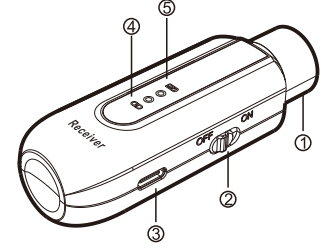

Transmitter

1. XLR Adapter  
2. Power Switch  
3. USB-C Charging Port  
4. Working Light  
5. Power Light  
6. Voltage Switch

Receiver

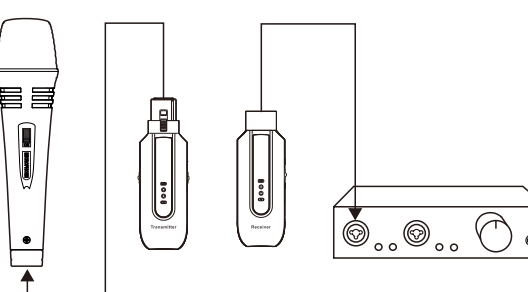

1. XLR Adapter  
2. Power Switch  
3. USB-C Charging Port  
4. Working Light  
5. Power Light

Receiver

1. XLR Adapter  
2. Power Switch  
3. USB-C Charging Port  
4. Working Light  
5. Power Light

QUICK START

1. Plug the Transmitter into the XLR dynamic Microphone and battery-powered condenser microphone.

2. Plug the Receiver into the Mixer or Power Speaker.

3. Turn on the Transmitter and Receiver power switch, the Working Indicator will light.

4. Check the connection by talking through the microphone.

NOTE: Put the Voltage Switch of 48V, if use the condenser microphone.

Turn off the 48V Voltage Switch, if use the dynamic microphone.

## **Federal Communications Commission (FCC) Statement.**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide Reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**Warning:** Changes or modifications made to this device not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

RF exposure statement:

This device complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. The device is installed and operated without restriction.
