SCHEMATIC DIAGRAM:

- 01 -

INSTRUCTIONS FOR USE:

1. For the first use, please charge the mouse first.
2. Take out the mouse and turn on it.
3. Plug the receiver into the computer and wait for the system to automatically install the driver before it can be used normally.

MOUSE FEATURES:

1. The mouse has 22 kinds of lighting effects. Short press the light button at the bottom to switch in a cycle. Press and hold the light button for 3 seconds to turn off/on the light.
2. Three levels of DPI: 800/1200/1600, short press the DPI button to switch DPI, the factory default is 1200DPI
3. Low battery reminder: When the battery power is low, the RGB effect is turned off, and the red light of the DPI button flashes to remind. Please charge in time

CONNECTION EXCEPTION SOLUTION:

1. It may be that the battery is low, please charge it in time
2. Simultaneously press and hold the wheel button + right button for 3-5 seconds
3. Within 20 seconds, plug in the USB receiver and it can be used normally

Note:

If the product is still unworkable after above solutions, you could repeat those steps for a few times.

CORRECT DISPOSAL OF THIS PRODUCT

(Waste Electrical & Electronic Equipment)

This Marking shown on the product or its literature, indicate that it should not be disposed with other household wastes at the end of its working life.

To prevent possible harm to the environment or human health from uncontrolled waste disposal, please separate this from other types of wastes and recycle it responsibly to promote the sustainable reuse of material resources. Household user should contact either the retailer where they purchased this product, or their local government office, for details of where and how they can take this item for environmentally safe recycling.

Business users should contact their supplier and check the terms and conditions of the purchase contract. This product should not be mixed with other commercial wastes for disposal.

FCC STATEMENT

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: The equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
