

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of an EUT (End User Terminal) housing. The green printed circuit board (PCB) is visible, featuring a central silver-colored component, likely a SIM card, and various electronic components. The white plastic housing is partially open, revealing the internal structure. A black ruler with white markings is placed horizontally below the housing for scale.
EUT Housing and Board View 2	 A photograph showing the internal components of an EUT (End User Terminal) housing from a different angle. The green printed circuit board (PCB) is visible, featuring a central silver-colored component, likely a SIM card, and various electronic components. The white plastic housing is partially open, revealing the internal structure. A black ruler with white markings is placed horizontally below the housing for scale.

Solder Board-Component View 1	 A photograph of a green printed circuit board (PCB) component, labeled '1', showing its solder side. The component is rectangular with various electronic components, including a large black integrated circuit (IC) in the center. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (mm) and centimeters (cm).
Solder Board-Component View 2	 A photograph of the same green PCB component, labeled '2', showing its other side. This side features a large, dark, rectangular component, possibly a heat sink or a large capacitor, and a small white label with a triangle symbol. It is placed on the same blue textured surface next to the same black ruler with white markings.
