CARE & MAINTENANCE

Do not submerge unit into water to avoid risk of electric shock
Do not put fingers, hands, or any object into the unit while opprating
Do not attempt to adjust or repair the unit.
Do not touch the water while unit is operating.
Do not fill water through the Mist Outlet or the Air Outlet.
Do not place the unit near heat sources or direct sunlight.
Use two hands when moving your humidifier.
Use this unit only as intended as described in this manual.

TO CLEAN:
Empty water from the Water Tank away from the Air Outlet.
The Ceramic Disc should not come in contact with any hard orsharp objects.
To remove possible buildup, rinse with a white vinegar and water solution.
Dry thoroughly with a soft cloth. Do not use strong cleaning agents.

AFTER USING THE HUMIDIFIER

1. Always disconnect from a power source by pulling out the plug when not in use.
2. DO NOT attempt to repair or adjust any electrical or mechanical functions on this humidifier.

This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
Children should be supervised to ensure that they do not play with the appliance.
If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.
Unplug the appliance during filling and cleaning.

FUNCTION CHARACTERISTICS

Mist button
Press 1st time: Power on, high mist output, "H" indicator light stays on.
Press 2nd time: Low mist output, "L" indicator light stays on.
Press 3rd time: Sleep mode, " S " indicator light stays on, all lights turn off after 3 seconds.
Long press for 3 seconds: Power off
Note: Any touch on the buttons can wake up the sleep mode.

Light button
Default startup with seven-color light cycle.
Press 1st to 7th time: Single-color light mode.
Press 8th time: Light off.
Note: Under any single-color light mode, press and hold the light button for 3 seconds to turn off the light.

Timer button
Press 1st time: "2H" indicator light on, the machine will automatically shut down after 2 hours.
Press 2nd time: "4H" indicator light on, the machine will automatically shut down after 4 hours.
Press 3rd time: "8H" indicator light on, the machine will automatically shut down after 8 hours.
Press 4th time: Exit timer mode.

FUNCTION CHARACTERISTICS

WiFi Connection Guide
1. Wi-Fi router supporting the 2.4GHz and 802.11 b/g/n bands.5GHz is not supported.
2. Download the tuyu app from the App Store (iOS devices) or Google Play(Android devices).
3. Entering the register, then turn on mobile wifi and Bluetooth;
4. Log into the account, Choose "add devices", Find our product (TT-10012L) and add it.
5. Enter a valid Wifi network in the space where the humidifier is located and enter your Wifi account and password to connect to the humidifier.
6. After a humidifier is added, change the name of the humidifier to an easily recognizable name.
7. Enter the APP operation interface for normal operation;

DOWNLOAD THE TUYA APP

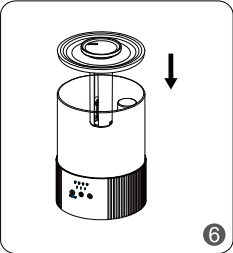

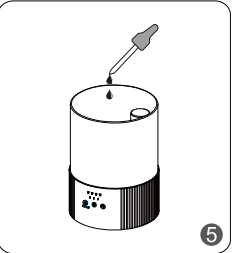

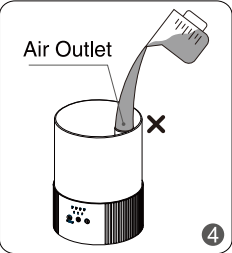

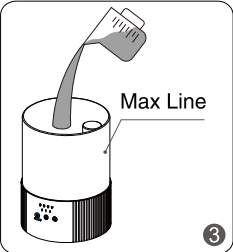

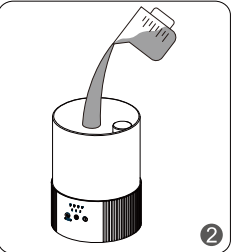

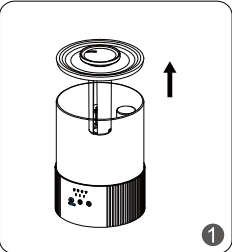

"ON" Indicator Light Explanation:
Only when the "ON" indicator light is flashing, you can connect to WiFi.
After power on, the "ON" indicator light starts flashing and will turn off after 5 minutes.
In standby mode, long-press the mist button for 3 seconds, and the "ON" indicator light starts flashing.
After successfully connecting to WiFi, the "ON" indicator light stays on.

If you have any questions or concerns about your new product please contact our Customer Support Team.
Email: support@opowo-direct.com
*Please have your order ID ready before contacting Customer Support.

7

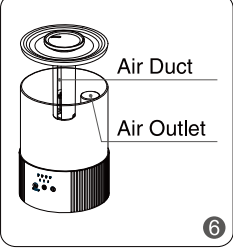

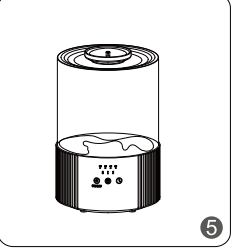

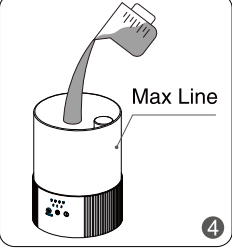

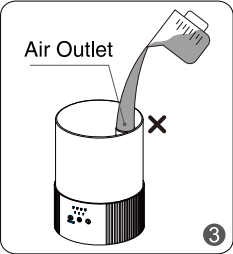

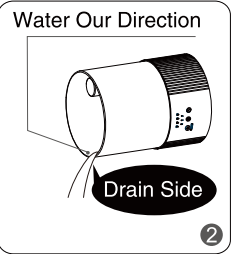

OPERATION GUIDE

1. Keeping the machine flat, remove the water tank cover.
2. Fill the tank with water.
3. Do not add water to exceed the Max line.
4. Do not let water enter the air outlet which will cause the humidifier to malfunction.
5. You can add essential oils into the water tank and enjoy the aromatherapy.
6. Put the water tank cover on, connect the power supply, and turn on the product.

2

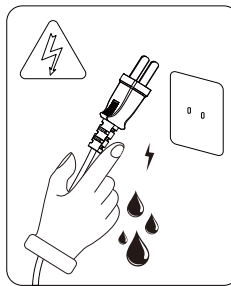

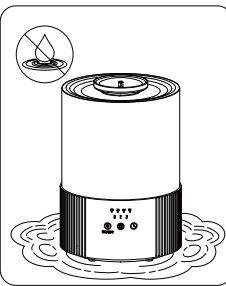

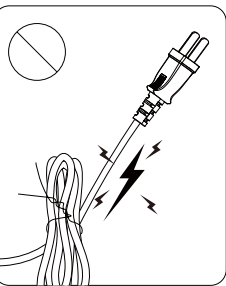

OPERATIONS GUIDE

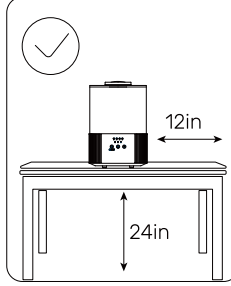

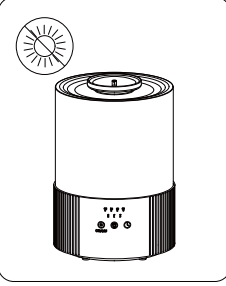

1. Please clean the water tank, base and atomizer regularly, and turn off the power before cleaning.
2. Please change the water in the tank frequently and pour the water in the right direction. You will accidentally damage the humidifier if you empty the water contents in the wrong direction (see diagram): the button side must be facing up towards you as you pour the water contents out.
3. During cleaning, please be careful not to get water into the air outlet, which might cause short circuit and machine damage.
4. Do not add water exceed the Max line.
5. When water runs out, our humidifier will auto turn off. At this moment, there is still a little water left in the tank (not totally dried), which is to prevent dryburn. It is a normal phenomenon and please feel assured to it.
6. Please let the air duct towards the air outlet for better misting experience.
7. As this humidifier is top-fill design, the water level is relatively low when you using it, which may affect the mist output.

8

BEFORE USING THE HUMIDIFIER

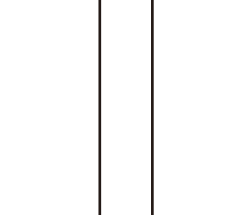

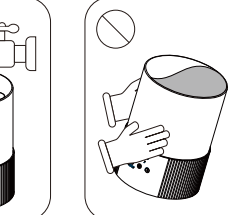

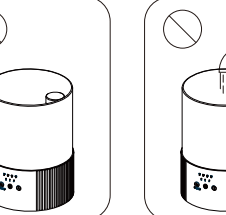

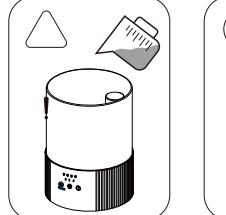

1. DO NOT use the humidifier if the cord has been damaged. Please check the cord for any signs of damage.
2. DO NOT place this humidifier in wet environments.
3. DO NOT plug the cord with wet hands.

4. Please always keep the humidifier out of reach of patients, children & pet.
5. Please always place the unit on a smooth, flat, lint-free, non-me tallic, waterproof and level surface and keep it away from direct sunlight.
6. Always place the unit 24 inches(60 cm) above the floor, 12 inches(30 cm) away from the wall, other appliances or wooden furniture .

3

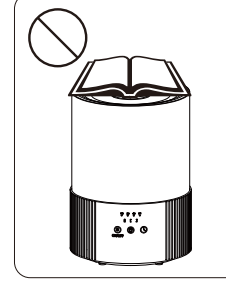

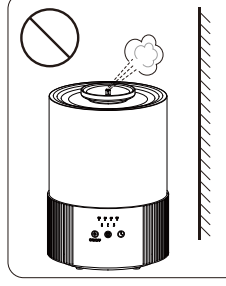

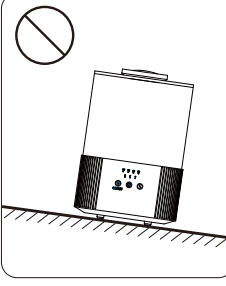

1. If tap water is too hard, it is recommended to use filtered or distilled water to avoid white dust.
2. DO NOT add water with temperature exceeds 50 degree Celsius.
3. DO NOT add water into the air outlet or empty water from the air outlet.
4. DO NOT tilt the humidifier while the water tank is filled with water to avoid leakage and water into the air outlet.

SPECIFICATIONS

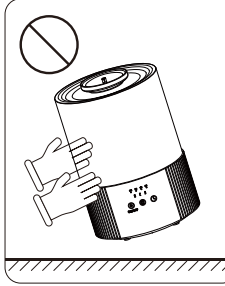

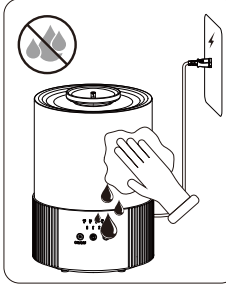

Model	TT -10012L
Input voltage	100-240V
Rated Power	25W
Water Tank Capacity	2.5L
Working Time	38h MAX
Atomization Quantity	150±20%ml/h
Timer Setting	2h/4h/8h

9

WHEN USING THE HUMIDIFIER

1. DO NOT place the humidifier on an inclined surface.
2. DO NOT direct the mist nozzle towards the wall.
3. DO NOT use your hand or any other object to cover the nozzle while the unit is on to avoid damaging the product or causing injury.

4. DO NOT clean the unit while it is connected to a power source or while it is on.
5. DO NOT move the humidifier diagonally or at an angle.

FCC Warning Statement: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Radiation Exposure Statement

The antennas used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co - located for operating in conjunction with any other antenna or transmitter.

IC Warning

This device complies with Industry Canada license-exempt RSS standard(s).
Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.
Under Industry Canada regulations, this radio transmitter may only operate using an antenna of a type and maximum (or lesser) gain approved for the transmitter by Industry Canada. To reduce potential radio interference to other users, the antenna type and its gain should be so chosen that the equivalent isotropically radiated power (e.i.r.p.) is not more than that necessary for successful communication.
This device complies with Canadian ICES-003 & RSS-247.
Radiation Exposure: This equipment complies with Canada radiation exposure limits set forth for an uncontrolled environment.
IC Radiation Exposure Statement
The antennas used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located for operating in conjunction with any other antenna or transmitter.

Avertissement IC
Cet appareil est conforme aux normes RSS sans licence d'Industrie Canada.
L'opération est soumise aux deux conditions suivantes: (1) cet appareil ne doit pas causer d'interférences, et (2) cet appareil doit accepter toute interférence, y compris celle susceptible de provoquer un fonctionnement indésirable de l'appareil, dispositif.
Selon la réglementation d'Industrie Canada, cet émetteur radio ne peut fonctionner qu' en utilisant une antenne type et gain maximum (ou inférieur) approuvés pour l'émetteur. Réduire brouillage radioélectrique potentiel avec d'autres utilisateurs, le type d'antenne et son gain doivent être choisis que la puissance isotrope rayonnée équivalente (e.i.r.p.) n'est pas supérieure à celle nécessaire pour communication réussie.
Cet appareil est conforme aux normes canadiennes ICES-003 & RSS-247.
Exposition aux radiations: Cet équipement est conforme à la réglementation canadienne sur les radiations.
limites d'exposition établies pour un environnement non contrôlé.
Déclaration d'exposition aux radiations IC
Les antennes utilisées pour cet émetteur doivent être installées de manière à assurer une distance de séparation d'au moins 20 cm au moins de toute personne et ne doivent pas être co-localisés pour fonctionner en conjonction avec autre antenne ou émetteur.
