

TUNN USER GUIDE

Magnetic suction automatic positioning wireless charging mobile phone holder

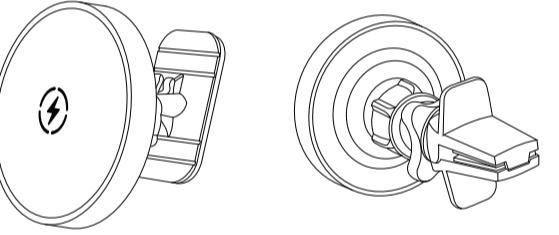

This product is compatible with iPhone 12/ 13 series

Please read this operation

Instruction carefully and keep it properly before using this product

Product introduction

Thank you for purchasing and using this products! In order to ensure that you can provide a better operating experience for your mobile phone or electronic products.

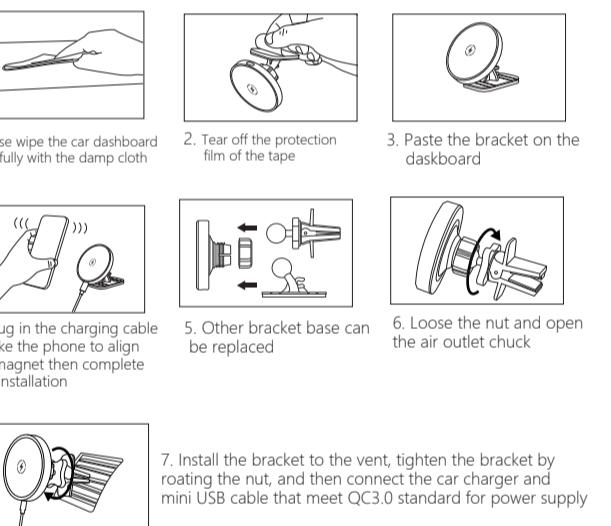

Applicable model		Compliance with Qi standard smart phone	
Input power	5V~2A 9V~1.67A 12V~2A	Output power	5V~5W 9V~5W 12V~5W
Frequency	110~205KHZ	Efficiency	80%~83%
Product name	Qi Car Charger	Model name	Z10W06
Operating temperature	0°C~45°C	Importer	Sagitech Technology
Address	3rd Floor, No. 30, Section 1, Chonggong North Road, Datong District, Taipei City		

PS: These above information is based on real sample testing, it will be a little bit different for various products in different conditions.

Accessory	Air conditioner	Cable
	Magnet ring	Suction stand

Operation

Note!

1. Please align the phone magnet with the wireless charging magnet to avoid the magnetic attraction does not work.
2. Please make sure you are using Magsafe cases. It can't compatible with non-Magsafe cases. Non-Magsafe cases will make magnetic force is weak and can't charge.
3. No metal plate on the back of phone, because it will stop phone charging.
4. Don't use the wireless charger in high temperature, humidity or corrosive environment, avoid damaging the circuit and avoid leadage.
5. Take care of children to ensure they will not play with wireless charger as a toy, in order to avoid unnecessary accidents.
6. To ensure the fast and safe charging, we select the QC2.0/QC3.0 standard car charger and the best four-core universal data cable, others non-standard car charger or cables will make the charging slow.
7. If the car temperature inside is too high, the charging will become slow, with the cold wind from the air outlet, charging on the air outlet will be much better, with the hot wind from the air outlet, please charging the mount on the dashboard.

NCC Warning:
For low-power radio frequency equipment that has been certified, consumers, firms, or users are not allowed to change the frequency, increase the power, or change the characteristics and functions of the original design without appropriate authorization. If interference is found, it should be stopped immediately and improved to no interference before continuing to use. Low-power radio frequency equipment must not affect flight safety and interfere with legal communications. If interference is found, it should be stopped immediately and improved to no interference before continuing to use. Telecommunications Administration Law: Low-power radio frequency equipment must ensure the interference of legal communications or industrial, scientific and medical radio wave radiation electrical equipment.

設備名稱: Qi 無線車充組		型號 (型式): Z10W06				
Equipment name		Type designation (Type)				
Unit	限用物質及其它化學符號 Restricted substances and its chemical symbols					
	鉛/Lead (Pb)	汞/Mercury (Hg)	鎘/Cadmium (Cd)	六價鉻/Hexavalent chromium (Cr+6)	多溴聯苯/Polybrominated biphenyls (PBB)	多溴二苯醚/Polybrominated diphenyl ethers (PBDE)
Circuit board	○	○	○	○	○	○
Metal board	○	○	○	○	○	○
Silicone	○	○	○	○	○	○
Metal glue	○	○	○	○	○	○

備考1. “超出0.1 wt %”及“超出0.01 wt%”係指限用物質之百分比含量超出百分比含量基準值。
Note 1: “Exceeding 0.1 wt %” and “exceeding 0.01 wt%” indicate that the percentage content of the restricted substance exceeds the reference percentage value of presence condition.

備考2. “O” 係指該項限用物質之百分比含量未超出百分比含量基準值。
Note 1: “O” indicates that the percentage content of the restricted substance does not exceed the percentage of reference value of presence.

備考3. “—” 係指該項限用物質為除項目。
Note 3: “—” indicates that the restricted substance corresponds to the exemption.

FEDERAL COMMUNICATIONS COMMISSION INTERFERENCE STATEMENT
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-Reorient or relocate the receiving antenna.
-Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/ TV technician for help.

CAUTION:
Any changes or modifications not expressly approved by the grantee of this device could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The equipment complies with FCC RF exposure limits set forth for an uncontrolled environment.
During the operation of device a distance of 15cm surrounding the device and 20cm above the top surface of the device must be respected.
