Attention: Application Examiner

RE: Request for Confidentiality
Applicant: EBT Medical US, Inc.
FCC ID: 2A3S8-MODEL20010

To Whom It May Concern:

Request is hereby submitted by EBT Medical US, Inc. to withhold permanently from public review certain portions of the application for equipment certification for the referenced FCC identifiers. This request for confidentiality is made pursuant to 47 CFR 0.457(d) and 0.459 of the FCC Rules. In particular, the following sections of the application are to be kept permanently confidential:

- **Schematics**
- **Detailed Block Diagrams**
- **Detailed Operational/Functional Description**
- **Internal photos** – The enclosure is permanently sealed and cannot be opened without rendering the device non-functional for its intended use.

Additionally, request is hereby submitted by EBT Medical US, Inc. to withhold from public review for a period of 45 days from the date of the Grant of Equipment Authorization and prior to marketing, certain portions of the application for equipment certification for the referenced FCC identifiers. This request for confidentiality is made pursuant to 47 CFR 0.457(d) and 0.459 of the FCC Rules. In particular, the following sections of the application are to be kept confidential for a period of 45 days from the date of Authorization:

- **External photos**
- **Test setup photos**
- **User Manual**

Rationale for request for confidentiality:

EBT Medical US, Inc. has invested considerable time and materials in research and development to produce the referenced product. Disclosure of the permanently confidential portions of this application to competitors would not only give them significant competitive advantages in developing similar products, but would also disclose successful implementation of unpublished, leading-edge technology developed by us. Disclosure of the short-term confidential portions of this application during the period of importation and/or distribution would reveal key aspects of proprietary technology to competitors and diminish the value of our investment in research and development.

If you have questions or need further information, please contact the undersigned.

Sincerely,

A handwritten signature in black ink, appearing to read "Mike Labbe".

Mike Labbe
VP of Research and Development
