

## UNIT SPECIFICATIONS

Number of LEDs: **12RGB+9W**  
LED Lifetime: **50,000+ hours**  
Battery Type: **Rechargeable**  
Battery Power: **2000 MAH**  
Battery Voltage: **3.7 V**  
Energy Consumption: **4.2 W**  
Charging Method: **Induction**  
Remote Control: **Infra-red**  
Input: **100-240V AC-50/60Hz**  
Output: **DC7.5V 0.6A**

## MATERIAL

Plastic: PE  
**PACKAGE INCLUDES:**  
1 LED Light  
1 Single Charger  
1 Remote Control  
1 Adapter  
**IP68 Rating**  
Protected from total dust ingress.  
Protected from long term immersion up to a specified pressure.

## FIRST USAGE PRECAUTIONS

To guarantee the maximum life of your product, please follow the first usage precautions:

- 1) Connect the charger
- 2) Fully charge your lamp's battery by placing the lamp on the charger for at least **10** hours. While the lamp is charging the light indicator on the charger will appear **red**. A **green** luminous indicator indicates the lamp is fully charged.

It is recommended that you empty (discharge) the full capacity of the battery before recharging fully. The internal battery has a charge accumulator and will require 8 or 10 complete charges/discharges before reaching optimal charge capacity.

To preserve the long life of the battery, turn the light off while on the charging plate.

## 17 PROGRAMMED COLORS

<b>W</b> STARK WHITE	<b>A</b> AQUA BLUE
<b>R</b> RUBY RED	<b>S</b> SOFT BLUE
<b>O</b> ORANGE	<b>B</b> BLUE
<b>L</b> LIGHT ORANGE	<b>D</b> DEEP BLUE
<b>Y</b> YELLOW-ORANGE	<b>P</b> PURPLE
<b>Y</b> YELLOW	<b>M</b> MEDIUM PURPLE
<b>G</b> DARK GREEN	<b>P</b> PINK-PURPLE
<b>T</b> TURQUOISE	<b>P</b> PINK

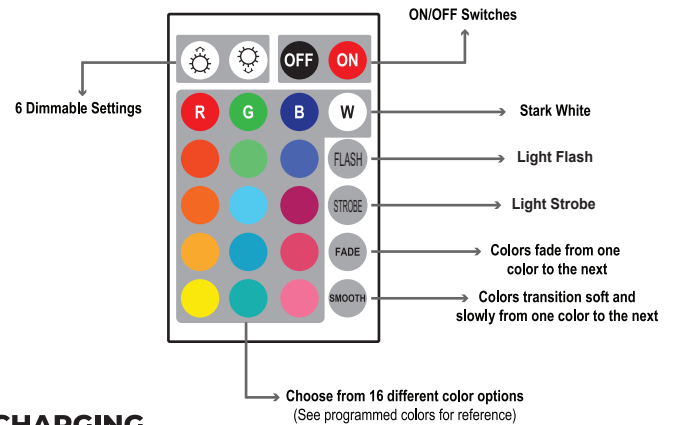

## RECYCLING

Do not throw this lamp away with your regular household garbage. Contact the appropriate service within your community to learn the best way to dispose of the device. Electrical products contain substances harmful to human health and the environment so must be adequately recycled.

## YOUR TABLE TOP LIGHT

## INFRARED REMOTE CONTROL

## RECHARGING

The MINI Charger, charges one single lamp and operates with the following adapter:

**INPUT:** 100V-240V-50/60Hz 0.2A Max  
**OUTPUT:** 7.5VDC 600mA

To preserve the long life of the battery, turn the light off while on the charging plate. When the lamp is charging the indicator will appear **red**. Once the lamp is fully charged the indicator will turn **green**.

## CLEANING YOUR LAMP

It is recommended to clean your lamp with a soft humid cloth. Do not use any aggressive liquids or materials.

## CAUTION

- Do not use the charger near a heat source or any open flames.
- The IP waterproof level cannot be maintained during charging.
- Do not charge or store the lamp in a humid or aqueous place.
- Do not try and open or dismount the lamp or charger to avoid any risk of electrical shock or altering its waterproofing
- Do not connect lamp to any other device
- Do not try to charge the lamp with a charger other than the charger provided
- Do not try and replace battery.
- Keep charger and lamp out of reach of young children.
- When storing your lamp, put it in its original box to avoid any damages.

## WARRANTY

Manufacturer's Warranty: 1 Year

## FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
