

EXHIBIT 4 - TEST SETUP PHOTOGRAPHS

Radiation Emission Test Setup (Below 30MHz)	 A photograph of a radiation emission test setup for frequencies below 30 MHz. The setup is located inside an anechoic chamber with walls covered in white, square-shaped absorbers. A large, black, cylindrical antenna is positioned in the foreground, pointing towards a small electronic device mounted on a white table in the background. A bright light source is visible in the upper left corner of the chamber.
Radiation Emission Test Setup (30MHz to 1GHz)	 A photograph of a radiation emission test setup for frequencies from 30 MHz to 1 GHz. The setup is located inside an anechoic chamber with walls covered in white, square-shaped absorbers. A small electronic device is mounted on a white table in the background. Two long, thin, silver-colored metal poles are positioned in the foreground, forming a frame around the device. A bright light source is visible in the upper left corner of the chamber.

**Radiation Emission Test
Setup (1GHz to 18GHz)**

**Radiation Emission Test
Setup (Above 18GHz)**

*** Means' only test and setup for PART 15C .**
