EN

imation is not responsible for any cost caused by defects or damages of products from misuse or neglect

互換モデル Compatibility	MASTER 3S, MASTER 3S for Mac ANYWHERE 3S, ANYWHERE 3S for Mac
------------------------	--

■ スペック / Product Specification

Rated Input	5V ≒ 0.5A
Interface	USB 2.0
Operational Temperature	0°C to 70°C
Physical Dimension(LxWxH)	80mm x 80mm x 107mm
Weight	106.3g

■ LED Light

スイッチを押すとLED照明が切り替わります。(赤→緑→青順に点灯する)
You can change the LED lighting by pressing the button (changes sequentially).

Mode	Standby Mode	Charging Mode	Charging Complete
Breathing Mode	Warm White Breathing	Warm White ON	Warm White Breathing
Wave Mode	Warm White Wave	Warm White ON	Warm White Wave
Night Mode	Warm White Breathing (Low brightness)	Warm White Wave (Low brightness)	Warm White Breathing (Low brightness)
Off Mode	Off	Off	Off

FCC Statement This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
Any changes or modifications (including the antenna) to this device that are not expressly approved by the manufacturer may void the user's authority to operate the equipment.
Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: - Reorient or relocate the receiving antenna. - Increase the separation between the equipment and receiver. - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. - Consult the dealer or an experienced radio/TV technician for help. Modifications not expressly approved by the manufacturer could void your authority to operate the equipment under FCC rules.
