Troubleshooting

1. Cannot connect the device to the HappyLighting App?

- Ensure the device is power on.
- Check if Bluetooth is enabled on your smartphone or trying to connect to another smartphone.
- When connecting for the first time, make sure the smartphone is close to the device.
- If you still encounter connection errors, remove the connected device from my devices page of the APP(upper right corner "  "). Then, follow the instructions provided earlier to reconnect to the HappyLighting APP.

2. The device has lost connection?

- Ensure the device is power on.
- Reduce the distance between the device and the controller to less

than 50 feet, and then reconnect.

- If the device continues to lose connection, remove the connected device from my devices page of the app(upper right corner "  "). Then, follow the instructions provided previously to reconnect to the HappyLighting APP.

3.The synchronization effect for music mode does not work properly.

- Ensure the control box is close to the music source which will help the microphone to receive sound better.

4.How many devices can be connected to one APP?

- Can connect 4 devices at the same time and set them at the same time.

5.Can one lighting equipment be used by multiple accounts?

- Yes, the old user actively exits the APP and turns off the Bluetooth, and the new user can use it after opening it;

6.Can the light source of this lamp be replaced?

- The light source of this luminaire cannot be replaced; when the light source reaches the end of its life, the entire luminaire should be replaced.

7.Can the luminaire be used for main lighting?

- Not used for main lighting. Only used to create a pleasant atmosphere.

8.Can the adapter be replaced at will?

- Need to use our matching adapter.

FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Statement

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance of 20cm the radiator your body. This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.
