

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of an EUT housing. The housing is open, revealing a circuit board with various components, including a battery, a microcontroller, and a cable. A black cable is connected to the board. A ruler is placed next to the housing for scale, showing measurements in millimeters and centimeters.
EUT Housing and Board View 2	 A photograph showing the internal components of an EUT housing from a different perspective. The housing is open, revealing a circuit board with various components, including a battery, a microcontroller, and a cable. A black cable is connected to the board. A ruler is placed next to the housing for scale, showing measurements in millimeters and centimeters.

Solder Board-Component View 1	 A photograph of a small, rectangular electronic component, likely a solder board, placed on a blue textured surface. The component is positioned next to a black ruler with white markings. The ruler is oriented vertically, showing measurements from 0 to 100 mm. The component is approximately 20 mm wide and 30 mm high. It features a central rectangular area with a different texture, possibly a solder mask or a specific material, and several small electronic components and solder joints are visible around the perimeter.
Solder Board-Component View 2	 A photograph of the same electronic component from a different angle, showing its profile and the underside. The component is placed on the same blue textured surface next to the same black ruler. The ruler is oriented vertically, showing measurements from 0 to 100 mm. The component's profile is visible, showing its thickness and the arrangement of components on the underside. The central rectangular area is also visible from this angle.

Solder Board-Component View 5	 A photograph of a small, rectangular electronic component (likely a camera module) mounted on a blue textured surface. The component is positioned next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10). The component is oriented vertically, with its longer side parallel to the ruler's 0-100 mm scale.
Solder Board-Component View 6	 A photograph of the same electronic component from a different angle, showing its top surface. The component is positioned next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10). The component is oriented horizontally, with its longer side parallel to the ruler's 0-100 mm scale. The top surface of the component features a circular lens and some text, including "RT001 S-386 V3.0." and "2023-09-09".

Solder Board-Component View 7	 A photograph of a small electronic component, likely a Wi-Fi module, mounted on a blue textured surface. A black ruler is placed vertically to the left of the component, showing measurements from 0 to 60 mm. The component is a small circuit board with various components and a gold-plated edge connector.
Antenna View	 A photograph of the internal components of a device, showing a black plastic housing. A red rectangular box highlights a component labeled "WIFI Ant.". A black cable with a connector is visible on the right side of the housing. WIFI Ant.
