

BC1000 BLUETOOTH CONVERTER

Introduction

The On-Stage BC1000 is a Bluetooth converter with a 4.0 chip. This chip offers high quality sound, and optimizes the compatibility and integral performance. Use a 3-pin XLR to connect to a console or active speaker, then use Bluetooth to connect PC, smart phone, etc for wireless transmission. When the BC1000 is low on battery, the red light will turn on.

Features

- Plug and play
- Applies to short distance transmission
- Light weight and space saving
- 3.7V lithium battery power supply

Introduction

1. XLR: Unbalanced output connector.
2. ON/OFF: When connecting, red and green blinking; ready to connect. Solid green: connected. Blinking red: Ran out of battery.
3. USB CHARGE: Use USB port to charge the device.

Connecting BC1000

Specifications

Versions:	Bluetooth V4.0
Power Supply	3.7V lithium battery power supply
Standby current	<0.5mA
Wireless transmission range	10m
Sensitivity	-80dBm $\pm 0.1\%$ BER
Charging method	USB charging
Signal to noise	$\geq 75\text{dB}$
Distortion	$\leq 0.1\%$

*CAUTION: RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE. DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS.

*Extreme Temperature: $-40\sim 80\text{ }^{\circ}\text{C}$.

*The product shall only be connected to a USB interface of version USB3.0

*FCC Statement:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio

frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved

by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation
