Declaration of harmful substances in electronic information products

Part name	Hazardous substance or element					
	(pb)	(Hg)	(Cd)	(Cr VI)	(PBB)	(PBDE)
PCB	X	O	O	O	O	O
plastic	O	O	O	O	O	O
battery	O	O	O	O	O	O
attachment	O	O	O	O	O	O
Charging line	X	O	O	O	O	O

This form is prepared in accordance with SJ/T 11364.

O: indicates that the content of the hazardous substance in all homogeneous materials of the component is below the limits specified in GB/T 26572.

X: The content of auxiliary hazardous substances in at least one homogeneous material of the component exceeds the limit requirements specified in GB/T 26572.

The product complies with EU RoHS 2.0 Directive (2011/65/EU)

Tips: The 5-year icon refers to the "environmental protection effective use period", not the product quality guarantee period. Electronic products contain lead, mercury, cadmium and other harmful substances. Once they are used over time, the harmful substances may cause environmental pollution or serious damage to human body and property due to leakage or mutation. "Environmental protection use period" means that all electronic products will be required to use within this effective period, and will not be responsible for the safety risk problems after the safe use period.

Iv. Product safety information

Please read all instructions and warnings before using this product, non-standard use will damage the product or personal safety.

[Anyway, the device comes with a battery, so don't expose yourself to strong sun or overheating, such as a furnace. Do not store the product under high temperature, strong light and strong magnetic field.](#)

A product should not be placed in harsh environments such as near a fire, regardless of whether it is knocked, thrown, trampled on, squeezed or thrown into the fire. Instead, do not use a product if it bulges.

The operating temperature of the product is 0 to 45 ° C.

According to the principle, users should not buy a ticket, which damages the product or endangers personal and property safety due to improper use contrary to the product specifications.

Unpros are banned from decomposing a product, which can cause a fire or even completely damage the product, according to the Website.

Buy a ticket to avoid using a load that exceeds the product's output current, as the device automatically stops working.

Buy a ticket to periodically clean the charging contact of your headphones using a clean cotton cloth to prevent them from failing to charge or switch on due to long-term uncleaning.

Buy something to avoid putting the product in water (or in a washing machine), and if it floods, wait for it to dry naturally before using it.

Five, product parameters:

Name: Basues Neck hanging noise reduction Bluetooth headset

It is hereby declared that the product model of Shenzhen Shishang Chuangjian Technology Co., Ltd. is Baseus Bowie U2 Pro in accordance with the provisions of EU Directives 2014/53/EU and 2011/65/EU. The full text of the EU Compliance Declaration can be found at www.baseus.com

FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and

(2) This device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- ▶ -Reorient or relocate the receiving antenna.
- ▶ -Increase the separation between the equipment and receiver.
- ▶ -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help.
